UN3267
Corrosive liquid, basic, organic, n.o.s. (Quaternary ammonium compounds, benzyl-C12-16-alkyldimethyl, chlorides)

ALGAECEIDE
FOR SWIMMING POOLS

CONTROLS BLACK ALGAE AND OTHER RESISTANT FORMS

ACTIVE INGREDIENTS:
Copper ethanaminem complex, mixed
(mono CAS# 14215-52-2 and b CAS# 82027-59-6) ............. 9.5% n-Alkyl (50% C14, 40% C12, 10% C16) dimethyl benzyl ammonium chloride: ........................... 26.3% OTHER INGREDIENTS: ............................................. 64.2%
TOTAL ........................................................................ 100.0%

*Contains 0.27 lbs. of elemental copper per gallon. Metallic copper equivalent, 3.07%

KEEP OUT OF REACH OF CHILDREN DANGER
SEE PRECAUTIONARY STATEMENTS ON BACK PANEL.

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly under cold water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF INHALED: Take off all contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Probable maximal damage may be catastrophic. In CASE OF EMERGENCY CALL: 1-800-765-9011

ALGAETRINE®

Black Algaetrine®

is a registered trademark of Arch Chemicals, Inc.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oce, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

UN3267 Corrosive liquid, basic, organic, n.o.s. (Quaternary ammonium compounds, benzyl-C12-16-alkydimethyl, chlorides)

TO ESTIMATE POOL CAPACITY
Square or Rectangular Pools: L x W x D x 5.9 = Gallons
Circular or Elliptical Pools: L x W x D x 5.9 = Gallons

STORAGE AND DISPOSAL
Do not contaminate food or feed by storage or disposal. Pesticide Storage: Keep this product dry in tightly closed container away from persons and children unfamiliar with its use. Store in cool, dry, well-ventilated area. Keep away from heat or open flame.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinseate is a violation of Federal Law. If these wastes cannot be disposed of according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Triple rinse as follows: Fill container 1/4 full with water and recup. Shake for 10 seconds. Empty the rinsuate into the equipment application or mix tank or store rinsuate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill.

Environmental Hazards: This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Physical/Chemical Hazards: Avoid contact with strong acids and oxidizers. Do not store near heat or open flame.

In Case of Spill: Contain and/or absorb spill with inert material (e.g. sand, vermiculite). Do not use clay to absorb spill. Avoid release into the environment.

Directions for Use: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions. This product controls the growth of algae in swimming pools. Brush algae spots prior to application. First vacuum, clean, and scrub walls. Apply 12 ounces of this product per 10,000 gallons of pool water. Settled algae debris may be removed by vacuuming. If necessary, brush once each day for two days following application. Before applying, adjust pool water pH to 7.2-7.8 as determined by a suitable test kit. Apply this dosage into the water around the edge of the pool. Do not concentrate the application in only one area.

Visible Algae Growth: Apply 12 ounces of this product per 10,000 gallons of pool water. Settled algae debris may be removed by vacuuming.

Very Dirty Pool with Heavy Algae Growth: Apply 24 ounces of this product per 10,000 gallons of pool water. Settled algae debris may be removed by vacuuming.

ALGAETRINE®
UN3267 Corrosive liquid, basic, organic, n.o.s.  
(Quaternary ammonium compounds, benzyl-C12-16-alkyldimethyl, chlorides)

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER.** Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed. May be fatal if absorbed through the skin. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**PHYSICAL/CHEMICAL HAZARDS:** Avoid contact with strong acids and oxidizers. Do not store near heat or open flame.

**IN CASE OF SPILL:** Contain and/or absorb spill with inert material (e.g. sand, vermiculite). Do not use clay or on clothing. Wear goggles or face shield, rubber gloves and protective clothing when handling. Wash gloves and protective clothing after handling. Wash or on clothing. Chill contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions. This product controls the growth of algae in swimming pools. Brush algae spots prior to application. If necessary brush once each day for two days following application. Before applying, adjust pool water pH to 7.2-7.8 as determined by a suitable test kit. Apply this dosage into the water around the edge of the pool. Do not concentrate the application in any one area.

**VISIABLE ALGAE GROWTH:** Apply 12 ounces of this product per 10,000 gallons of pool water. Settled algae debris may be removed by vacuuming.

**VERY DIRTY POOL WITH HEAVY ALGAE GROWTH:** First vacuum, clean, and scrub walls. Apply 12 ounces of Black Algaetrine® Algaecide For Swimming Pools per 10,000 gallons of pool water. Vacuum to remove algae debris.

**MAINTENANCE DOSE:** (Free of visible algae) Apply 6 ounces of Black Algaetrine® Algaecide For Swimming Pools per 10,000 gallons of pool water every 5 to 7 days. NOTE: If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

**STORAGE AND DISPOSAL**

Do not contaminate food or feed by storage or disposal. Pesticide Storage: Keep this product dry in tightly closed container away from persons and children unfamiliar with its use. Store in cool, dry, well-ventilated area. Keep away from heat or open flame. Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticides, spray mixture, or residue is a violation of Federal Law. If these wastes cannot be disposed of according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**Container Disposal:** Nonrefillable container. Do not reuse or refill this container. Triple rinse as follows: Fill container 1/4 full with water and recap. Shake for 10 seconds. Empty the rinse into the application equipment or mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill.

**APPLICATION**

To estimate pool capacity:

Square or Rectangular Pools: \( L \times W \times D \times 7.5 = \text{Gallons} \)

Circular or Elliptical Pools: \( L \times W \times D \times 5.9 = \text{Gallons} \)

**Black Algaetrine®**

**Algaecide For Swimming Pools**

**CONTROLS BLACK ALGAE AND OTHER RESISTANT FORMS**

**ACTIVE INGREDIENTS:** Copper ethanesulfonate complex, mixed (mono CAS# 14215-52-2 and tri CAS# 89207-59-6) .......... 9.5% n-Alkyl (50% C14, 40% C12, 10% C16) dimethyl benzyl ammonium chloride: .................. 26.3% OTHER INGREDIENTS: ...................... 64.2% TOTAL: ........................................ 100.0%
