Superscript Used in Lot No.:
**DIRECTIONS FOR USE:**

- **FOR CONTINUOUS DAILY CHLORINATION:** Use as directed in the chart located in the back. Keep the free chlorine level of your pool between 1.0 and 1.5 ppm at all times. Do not mix this product with a small amount of water, as it can react violently to produce heat and toxic gas and spatter. Do not add water to this product. Add only into water.

- **FOR SWIMMING POOL AS DISCOLORATION OF THE POOL:** Immerse one tablet (or as many as required to reach a 4 ppm residual chlorine reading) into the filter section of your pool water.
PMS 300
BLACK
STABILIZED CHLORINATING CONCENTRATE

Read all precautionary statements and first aid statements on back or absorbed through skin. Harmful if swallowed. Causes irreversible eye damage and skin burns. May be fatal if inhaled a small amount of water. Only add directly to your pool. Corrosive.

Do not mix this product with other water treatment products. Remove floater or other dispensing device from water for an extended period spatter. If product is exposed to small amounts of other water treatment products, it can react violently to produce heat and toxic gases and release of toxic gases. DANGER. If product is exposed to small amounts of product. Add only into water.

DANGER: Corrosive.

TOTAL ALKALINITY TO 80 TO 150 PPM (PARTS PER MILLION).

1. Adjust the pool water pH value to between 7.2 and 7.8. Maintain the desired pH value.

2. Add the shelf life oxidizer and observe the water. The oxidizer will adjust the pH to a value higher than the desired value.

3. Superchlorinate (shock treat) your pool water to reestablish the free available chlorine level. For new pool water, use 1, 2 and 3 above.

4. Once you complete 1, 2 and 3 above, use this product to maintain the free residual chlorine at a safe level. If you use product to maintain the free residual chlorine at a safe level, do not use product for daily chlorination.

5. Using a feeder, floater or skimmer dispenser, continuously maintain the safe free available chlorine level. Level for each 5,000 to 10,000 gallons (18,920 to 37,840 liters) of pool water.

PRECAUTIONARY STATEMENTS

• Wash hands after handling and before eating, drinking, chewing gum, using tobacco.

• Avoid spilling this product.

• Do not mix this product with a small amount of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water.

• Use only clean dry utensils to dispense this product.

• Do not mix this product with any other mater.

• Open in a well-ventilated area. Avoid breathing dust and fumes.

• Do not allow this product to contact other water treatment products, away from this product.

• Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves. For additional protection, wear a protective mask or respirator and hand protection.

• Do not allow product to contact any foreign matter, including other water treatment products.

• Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves. For additional protection, wear a protective mask or respirator and hand protection.
