POISON

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For home use only.

USE RESTRICTIONS: This product may only be used to control pocket gophers (Geomya spp., and Thomomys spp.) in underground applications in residential areas, including lawns. Bait must be manually applied directly into pocket gophers' underground burrow systems. Do not apply this product by use of a mechanical burrow builder. Do not apply this bait on or above the ground surface. Immediately pick up any bait that spills on the ground. Keep pets and other people out of the area during application.

BAITING: Burrowing pocket gophers throw out low, fan shaped mounds on either side of their underground tunnel. These lateral tunnels forming to the surface are on the flat side of the fan and are plugged with soil. Remove burrow plug from the flat side of the burrow fan. Use long-handled spoon and insert 1 teaspoon of bait into main runway system. Close tunnel with soil. Do not permit soil to cover bait. Depending upon pocket gopher population levels, one-quarter (1/4) cup applied by hand will treat 4000 to 30000 square feet.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store only in original labeled container in a cool, dry area inaccessible to children, pets, and domestic animals.

Pesticide Disposal: Dispose of: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spilled bait, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: If empty: Nonrefillable container. Do not reuse or refill this container. Triple-rinse container. Then puncture container and offer it for recycling. If available, or disposal in a sanitary landfill. If allowed by State and local authorities, container may be disposed of by burning. If container is burned, stay out of smoke.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive Poison.Fatal if swallowed or inhaled. Harmful if absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. Do not breathe dust. Do not apply this product in a way that will contact any person or pet. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers must wear:
• long-sleeved shirt and long pants
• cotton gloves
• shoes plus socks
• dust/mist filtering respirator (N95) or approved by OSHA, or a NIOSH approved respirator with an N, P, R, or HE filter

Follower manufacturer's instructions for cleaning and maintaining PPE. If there are no such instructions, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Users should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not allow bait to be exposed on soil surface. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply directly to food or feed crops. Do not contaminate water when disposing of equipment washwater.

ENDANGERED SPECIES CONSIDERATIONS

NOTICE: The killing of a member of an endangered species during strychnine baiting operations may result in fines under the Endangered Species Act. Before baiting, the user is advised to contact the Regional U.S. Fish and Wildlife Service (Endangered Species Specialist) or the local Fish and Game Office for specific information on endangered species. Strychnine baits should not be used in the geographic ranges of the following species except under programs and procedures approved by the U.S. EPA: San Joaquin kit fox, Marbe Ray kangaroo rat, salt marsh harvest mouse, gray wolf, and grizzly bear.
