Controls Grass in Ornamentals, Nurseries & Landscaping.

*See label directions for species not to be sprayed over-the-top.

ACTIVE INGREDIENT:
Fluazifop-P-butyl: Butyl(R)-2-[4-[[5-(trifluoromethyl)-2-pyridinyl]oxy]phenoxy] propanoate ............... 6.75%
OTHER INGREDIENTS: ................ 93.25%

TOTAL 100.00%

THIS PRODUCT CONTAINS:
0.50 lb (+) isomer (fluazifop-P-butyl) per gallon.

Contains petroleum distillates, xylene or xylene range aromatic solvent.

ORNAMEC® is a registered trademark of PBI-Gordon Corporation.

KEEP OUT OF REACH OF CHILDREN

CAUTION

See necktag for Precautionary Statements and Directions for Use (including First Aid, Agricultural Use Requirements, and Storage and Disposal).

NET CONTENTS: ONE U.S. GALLON
STOP! READ THE ENTIRE LABEL FIRST. OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

FIRST AID

| If in eyes:                          | • Hold eye open and rinse slowly and gently with water for 15-20 minutes.
|                                     | • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
|                                     | • Call a poison control center or doctor for treatment advice. |
| If on skin or clothing:             | • Take off contaminated clothing.
|                                     | • Rinse skin immediately with plenty of water for 15-20 minutes.
|                                     | • Call a poison control center or doctor for treatment advice. |
| If swallowed:                      | • Immediately call a poison control center or doctor. |
|                                     | • Do not induce vomiting unless told to do so by the poison control center or doctor. |
|                                     | • Do not give any liquid to the person. |
|                                     | • Do not give anything by mouth to an unconscious person. |

(cont. on next column)

FIRST AID (cont.)

If inhaled:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
• Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-877-800-5556 for emergency medical treatment advice.

Note to Physician: Contains petroleum distillate – vomiting may cause aspiration pneumonia.

Environmental Hazards

This product is toxic to fish. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater. Do not apply when weather conditions favor drift from target area.

Physical and Chemical Hazards

Do not use or store near heat or open flame.
User Safety Requirements

1. Product Description
   - ORNAMEC is a ready-to-use over-the-top herbicide for lawn use. It is designed to control grass weeds in newly transplanted and established ornamentals, trees, and broadleaf ornamentals. It contains the active ingredient aminopyralid, a pyridine carboxylic acid, which is a non-selective, contact, and translocation herbicide. It is specifically labeled for use on ornamentals and broadleaf plants such as weeds in lawns which are established. It contains 6.75% aminopyralid by weight and is a water-based formulation. The active ingredient is applied to turfgrass and ornamental plants to control grass weeds by inhibiting root and shoot growth. 

2. How to Use
   - Before applying ORNAMEC, it is recommended to follow the instructions provided in Table 5. This table contains the herbicide rate and the appropriate application timing for each species. 

3. Annual Grasses
   - Table 3 contains a list of annual grass species, their scientific and common names, and their recommended height for application. The recommended height for application is 2 to 8 inches tall before tillering and/or heading. 

4. Woody Plants
   - Table 4 contains a list of woody ornamentals, including their scientific and common names, and their recommended height for application. The recommended height for application is 2 to 8 inches tall before tillering and/or heading.

5. Ornamentals Which May Be Treated
   - Table 5 contains a list of broadleaf ornamentals, their scientific and common names, and their recommended height for application. The recommended height for application is 2 to 8 inches tall before tillering and/or heading.

6. Ornamentals Which May Be Treated
   - Table 5 contains a list of broadleaf ornamentals, their scientific and common names, and their recommended height for application. The recommended height for application is 2 to 8 inches tall before tillering and/or heading.

7. Action Information
   - ORNAMEC affects the growth and development of grass weeds by inhibiting root and shoot growth. It is absorbed through the leaves, stems, and roots of grass weeds and translocates to prevent new growth.

8. Targeting and Application
   - DO NOT use ORNAMEC on flowers, vegetables, or field crops. Care must be taken to prevent drift from the treated area. ORNAMEC can be used on ornamentals, trees, and broadleaf ornamentals.

9. Application Equipment
   - ORNAMEC contains the active ingredient aminopyralid, which is a non-selective contact and translocation herbicide. It is a water-based formulation that can be applied through a variety of equipment. 

10. Precautions
    - ORNAMEC contains the active ingredient aminopyralid, which is a non-selective, contact, and translocation herbicide. It is a water-based formulation that can be applied through a variety of equipment. 

11. Guidelines for Application
    - Care must be taken to prevent drift from the treated area. ORNAMEC can be used on ornamentals, trees, and broadleaf ornamentals.

12. Application Timing
    - Table 5 contains a list of annual grass species, their scientific and common names, and their recommended height for application. The recommended height for application is 2 to 8 inches tall before tillering and/or heading.

13. Application Rate
    - Table 5 contains a list of annual grass species, their scientific and common names, and their recommended height for application. The recommended height for application is 2 to 8 inches tall before tillering and/or heading.

14. Control Symptoms
    - ORNAMEC can be used to control grass weeds in newly transplanted and established ornamentals, trees, and broadleaf ornamentals. It contains 6.75% aminopyralid by weight and is a water-based formulation. The active ingredient is applied to turfgrass and ornamental plants to control grass weeds by inhibiting root and shoot growth. 

15. Material Safety Data Sheet
    - The Material Safety Data Sheet (MSDS) provides information on the physical and health hazards associated with the use of ORNAMEC. It includes information on the handling, storage, and disposal of the product.
**Scientific Name** | **Common Name/Variety**
--- | ---
**Syzgium paniculatum** | Australian bush cherry
**Syringa patula** | Lilac, Korean
**Stenocarpus sinuatus** | Firewheel tree
**Spiraea x billiardii** | Spirea, Billard
**Spiraea thenbergii** | Spirea, Thunberg
**Sorbus americana** | Ash, American Mountain
**Sophora japonica** | Pagoda tree
**Sempervivum tectorum** | Hen and chickens
**Sedum spectabile** | Sedum
**Sedum guatemalense** | Brown bean
**Schinus molle** | California pepper tree
**Salix matsudana** | Willow, Tortuosa corkscrew
**Rosa hybrida** | Rose, Hybrid tea
**Rosa banksiae** | Banksia
**Rhododendron yedoense** | Korean azalea/Poukhanense
**Rheullia california** | Rheullia californica
**Raphiolepis indica** | Pink lady
**Pyracantha graberi** | Firethorn
**Pseuderanthemum atropurpureum** | Eranthemum, Purple false
**Protea compacts** | Protea
**Podocarpus gracilior** | Pine, African Fern
**Pittosporum Tobira Willow, Wheelers dwarf, variegated**
**Pinus taeda** | Pine, Loblolly
**Pinus strobiformus** | Pine, Mexican border
**Pinus serotina** | Pine, Pond
**Pinus resinosa** | Pine, Red
**Pinus glabra** | Pine, Spruce
**Pinus canariensis** | Pine, Canary Island
**Philodendron selloum** | Philodendron selloum
**Pachysandra terminalis** | Pachysandra, Japanese
**Osteospermum fruticosum alba** | Daisy, White africans
**Osmanthus fragrans** | Osmanthus, tea olive
**Musa maurelli** | Banana, Ethiopia
**Malus floribunda** | Crabapple, Showy
**Mahonia aquifolium** | Mahonia
**Livistona chinenis** | Palm, Chinese fan
**Ligustrum x Vicari** | Ligustrum, Vicari
**Juniperus scopulorum** | Juniper, Cologreen
**Juniperus sabina** | Pepin, Skandia, Buffalo, Juniper
**Juniperus horizontalis** | Juniper, Admiral
**Thuja orientalis** | Berkman’s
**Viburnum dentatum** | Viburnum, Arrowwood
**Tilia cordata** | Linden, Little-leaf
