See Directions for Use for additional precautionary statements

Personal Protective Equipment (PPE)
Handlers must wear: Goggles or face shields, and protective rubber gloves.

Environmental Hazards
This pesticide is toxic to birds, fish and aquatic invertebrates.

Physical and Chemical Hazards
This product contains an oxidizing agent.

COLD STERILANT
FOR USE IN HEALTH CARE ENVIRONMENTS

KEEP OUT OF REACH OF CHILDREN
DANGER - PELIGRO

PRECAUTIONARY STATEMENTS
Hazard to Humans and Domestic Animals.

DANGER - PELIGRO
Corrosive. Causes irreversible eye damage. Harmful if absorbed through skin. Do not get in eyes, on skin, or on clothing. Avoid contact with skin. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash hands before reuse. Caution should be used when applying indoors because pets may be at risk.

ACTIVE INGREDIENTS
Hydrogen Peroxide ..........1.00%
Peroxyacetic Acid ............08%

INERT INGREDIENTS .........98.92%

Total ................................100.00%

NET CONTENTS: 0.95 Liters
(1 Quart)

KEEP OUT OF REACH OF CHILDREN
DANGER - PELIGRO

HOT LINE NUMBER
For chemical emergency, spill, leak, fire, exposure and accident, call Chemtrec, day or night (800) 424-9300, (703) 527-3887.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact Chemtrec at 1-800-424-9300 for emergency medical treatment information.

Note to Physician:
Probable mucosal damage may contraindicate the use of gastric lavage.

FIRST AID
IF INHALED • Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
• Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR ON CLOTHING • Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment.

IF IN EYES • Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after first 5 minutes, then continue rinsing.
• Call a poison control center or doctor for treatment advice.

IF SWALLOWED • Call a poison control center or doctor immediately for treatment advice.
• Have a person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

IF INHALED

• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
• Call a poison control center or doctor for further treatment advice.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage
1. Store upright in shipping carton.
2. Do not expose to direct sunlight.
3. Maintain temperature below 75°F (24°C).
4. Avoid contact with combustible materials.
5. Store in original closed container.
6. For chemical emergency, spill, leak, fire, exposure and accident, call Chemtrec, day or night (800) 424-9300, (703) 527-3887.

Pesticide Disposal
Waste resulting from the use of this product may be disposed of on-site in a sanitary sewer or at an approved waste disposal facility.

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for Guidance.

Container Disposal
Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.
Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill container 1/4 full with water and repeat. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after flow begins to drip. Repeat this procedure two more times.

Handlers must wear: Goggles or face shield, and protective rubber gloves.

**Environmental Hazards**
This pesticide is toxic to birds, fish and aquatic invertebrates. (Applicable to volumes of 5 gallons or greater.) Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in a NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage plant authority. For guidance contact your State Water Board or Regional Office of the U.S. Environmental Protection Agency.

**Physical and Chemical Hazards**
This product contains an oxidizing agent.
DIRECTIONS FOR STERILIZATION

1. ACTRIL Cold Sterilant may be used to sterilize non-invasive dental/surgical equipment such as pressure clamps, tubing clamps, blood pressure cuffs, mirrors etc. This product is not to be used as a terminal sterilant on any critical/semi-critical medical device.

2. Remove any obvious debris or organic material from the surface to be sterilized. This can often be accomplished by rinsing with water or by detergent cleaning followed by a water rinse.

3. Immerse the item to be sterilized in a sufficient volume of undiluted ACTRIL Cold Sterilant solution to cover the item and/or where appropriate by filling all passages requiring sterilization. Hold in sterilizing solution for a minimum of 10 minutes at 20°C temperature (68°F).

4. Remove items after 10 minutes and rinse with purified water until rinse water shows level of 10 ppm or less when tested with ACTRIL Residual Test Strips.

5. Allow surfaces to dry thoroughly before operations are resumed. Note: In all applications, always prepare a new solution daily to ensure effectiveness. Do not reuse solutions. Dispose of any unused solution.

DIRECTIONS FOR BROAD SPECTRUM DISINFECTION

1. For broad spectrum disinfection of items such as external surfaces of medical equipment, kidney dialysis machines, non-invasive dental instruments, counters, bathroom fixtures, etc. This product is not to be used as a terminal disinfectant on any critical/semi-critical medical device.

2. Remove any obvious debris or organic material from the surface to be disinfected. This can often be accomplished by rinsing with purified water (e.g. deionized), mechanical action, or by detergent cleaning followed by a water rinse.

3. Immerse the item to be disinfected in sufficient volume of undiluted ACTRIL Cold Sterilant solution to cover the item and/or where appropriate by filling all passages requiring disinfection. Hold item in contact with the disinfecting solution for a minimum of 5½ hours at 20°C temperature (68°F).

4. Remove items after 5½ hours and rinse with sterile water until rinse water shows level of 10 ppm or less when tested with ACTRIL Residual Test Strips.

5. The solution may be used and reused for up to 14 days in a manual system with 5½ hours immersion.

DIRECTIONS FOR REGULAR CLEANING:

This product may be used in fogging (wet misting) following regular cleaning procedures for hard room surfaces.

1. Prior to fogging, remove or carefully protect all food products or semi-critical medical devices prior to sterilization or high level disinfection.

2. Ensure room is properly ventilated. Vacate all personnel from the room during fogging and for a minimum of 2 hours after fogging or until the hydrogen peroxide air concentration is below 0.5 ppm.

3. Fog areas using a plastic spray bottle. This product may be used in fogging (wet misting) following regular cleaning procedures for hard room surfaces.

4. Use purified water (e.g. deionized) for making dilutions, cleaning and rinsing.

5. Some materials may be incompatible with ACTRIL Cold Sterilant. Test material prior to use.

6. Reuse of diluted ACTRIL Cold Sterilant is not recommended.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE

1. Store upright in shipping carton.

2. Do not expose to direct sunlight.

3. Maintain temperature below 75°F (24°C)

4. Avoid contact with combustible materials.

5. Store in original closed container.

6. For chemical emergency, spill, leak, fire, exposure and accident, call Chemtrec, day or night (800) 424-9300, (703) 527-3887.

PESTICIDE DISPOSAL

Wastes resulting from the use of this product may be disposed of on-site in a sanitary sewer or at an approved waste disposal facility.

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for Guidance.

CONTAINER DISPOSAL

Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.

(For ≤ 5 gal.): Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after flow begins to drip. Repeat this procedure two more times.

(For >5 gal.): Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten enclosures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand container on its end and tip it back and forth several times. Empty rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

USES

Primarily intended for sterilization, disinfection or sanitization of:

Stainless Steel
Plastic Items and surfaces
Anesthesia Equipment
Medical Equipment
External Surfaces of Respiratory Equipment
Hard Surfaces e.g. counter tops
Non-Invasive Surgical Equipment
Floors
Walls
Bathroom fixtures

Glass
Non-Invasive Dental Instruments
Formica
Vinyl

Materials Compatibility: Polyvinyl chloride, polypropylene, polyurethane, aceto-copolymers, polycarbonate, polysulfone, polystyrene, stainless steel.
