**USER SAFETY RECOMMENDATIONS**

- Users should wash hands before eating, drinking, chewing gum, using tobacco or using the product.
- Personal Protective Equipment (PPE) should be worn when handling the product.
- Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the product.

**HAZARDS TO DOMESTIC ANIMALS**

- Avoid exposure to pets or livestock exposed directly or through drift. Only protected handlers may be present.

**PERSONAL PROTECTIVE EQUIPMENT (PPE)**

- Users should wear protective clothing, gloves, and eye protection when handling the product.
- Users should wash their hands with soap and water after handling the product.

**DIRECTIONS FOR USE**

- For residential outdoor surface and space sprays, do not enter or allow others to enter the treated area before the pesticide has dispersed. When people and pets are present, use an automatic spray system or direct nozzles to spray towards the target area and away from people and pets.
- For outdoor ground fogging/misting, do not enter or allow others to enter the treated area until people and pets are unlikely to be present. If possible, when treating residential areas, do not use the product when people and pets are present. When using this product, installers and service technicians must be locked. Securely attach the end use label to the pesticide container in a weather protected area or plastic sleeve. If used in a direct injection system, the pesticide container must be locked. Securely attach the end use label to the pesticide container in a weather protected area or plastic sleeve. If used in a system with a reservoir tank for the end use, the system reservoir tank must be locked. Securely attach the end use pesticide label and a dilution statement for the system reservoir tank.

**STORAGE AND DISPOSAL**

When used in handheld sprayers, apply the diluted pesticide container into the system at a rate of 0.000476 lbs pyrethrins and 0.008 lbs piperonyl butoxide and 0.25 grams of diazinon per gallon of water. When used in a system with a reservoir tank for the end use, the system reservoir tank must be locked. Securely attach the end use label to the pesticide container in a weather protected area or plastic sleeve. If used in a direct injection system, the pesticide container must be locked. Securely attach the end use label to the pesticide container in a weather protected area or plastic sleeve.

SAFETY INFORMATION

USER SAFETY RECOMMENDATIONS

- Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Pesticide off the treatment area. Rinsing application equipment over the treated area will help prevent contamination from spray and from dead or falling insects. Remove or cover milking utensils before applying via automatic timer, set the timing for application following permitted uses:

STORAGE AND DISPOSAL

- Do not apply the concentrate or diluate on spray equipment or in areas where workers or others might come in contact with it. Use only in systems that have been designed and validated for use with Pyranha® Space Spray 1-10® HPS Concentrate to ___ parts water.
- To apply Pyranha® Space Spray 1-10® HPS Concentrate to ___ parts water, mix thoroughly prior to application.
- USE DIRECTIONS FOR USE:

- Do not apply using a high pressure wand, hand sprayer or fogger to enter until sprays have dried. For space spray use, do not remain in treated area. Exit area to enter until vapors, mists and aerosols have dispersed.

FIRST AID

- If swallowed: Rinse mouth, do not induce vomiting, and get medical help. If water or diluate gets in eyes, wash with plenty of water for 15-20 minutes. If contact with the skin, wash immediately with plenty of water for 15-20 minutes. Do not give anything by mouth to an unconscious person.

- Avoid contact with skin, eyes or clothing.
- Wash thoroughly and put on clean clothing.
- Keep and wash PPE separately from other washables.
- If no such instructions for washables exist, use detergent and hot water. Follow manufacturer's instructions for cleaning/maintaining PPE. If no instructions for washables exist, use detergent and hot water.

ENVIRONMENTAL HAZARDS

- Use with care and appropriate protective equipment to minimize risk to the environment.
- Do not apply this product or its drift to following crops or seeds while they are actively budding or flowering:

- This product is phrased as follows: this container holds ___ parts concentrate to ___ parts water.

- The diluted concentrate is a mixture of Pyranha® Space Spray 1-10® HPS Concentrate to ___ parts water. This label is for informational purposes only.

- This product must only be used in systems that have been designed and validated for use with Pyranha® Space Spray 1-10® HPS Concentrate to ___ parts water.

- This product must only be used in systems that have been designed and validated for use with Pyranha® Space Spray 1-10® HPS Concentrate to ___ parts water.
