• BACTERICIDAL
• FUNGICIDAL
• VIRUCIDAL**
• TUBERCUCIDAL
• PREVENTS MOLD AND MILDEW
• ELIMINATES ODORS*

INSTITUTIONAL + FOOD PROCESSING + RESIDENTIAL

AN EFFECTIVE CLEANER, DISINFECTANT AND DEODORIZER FOR INSTRUMENTS, AND EQUIPMENT ON PRE-CLEANED, HARD, NON-POROUS SURFACES in hospitals/treatment and patient rooms; operating rooms, schools, ambulances, hotels, restaurants, boats, planes, buses, and the home. Recommended for medical and dental equipment; boats, restaurants, counter tops, mannequins, telephones, keyboards, furniture, wheelchairs, walkers, sinks, floors, walls, light switches, linen hampers, shower stals, toilet seats, trash containers and damp and moist areas, including animal areas. Self-sanitizes against odor-causing bacteria and fungi. Reduces the hazards of cross-contamination.

PASSED AGAC EFCY Standards for DISINFECTION in the PRESENCE of 5% ORGANIC SOIL; FOR INSTITUTIONAL, HOSPITAL and FARM PREMISE USE.

• Virucidal**: Avian Influenza A (H1N1), Avian Influenza A (H5N1), Swine Influenza A (H1N1), SARS Coronavirus, Polio Type 1 virus, Vaccinia Virus, Herpes Simplex types 1 and 2, and Herpes Simplex virus type 1 and 2. \( \text{See ISOPCAN Bulletin No.} \ 203, \)

• Bacitracin Sensitivity: Staphylococcus aureus, Staphylococcus epidermidis, Methicillin resistant Staphylococcus aureus (MRSA), Vancomycin resistant Enterococcus faecium (VRE), E.coli, Streptococcus pyogenes, Streptococcus salivarius, Mycobacterium tuberculosis, and:

• FUNGICIDAL: Candida glabrata, Aspergillus niger, Penicillium sp., Trichophyton mentagrophytes (Athlete's Foot fungus).

ACTIVE DEODORIZER: Provides continuous residual bactericidal activity against odor-causing bacteria for up to 4 months, if not removed from surfaces including plastics, latex, vinyl glass, treated wood, metals, glazed porcelain, glazed tile and paint.

SPORICIDIN DISINFECTANT TOWELETTES are permanent when used as directed for disinfection but differ in composition from other Sporicidin products.

DIRECTIONS FOR USE: If is a variation of U.S. Federal Law to use this product in a manner inconsistent with its labeling.

DO NOT DILUTE OR MIX WITH OTHER CHEMICALS.
PRECLEAN surfaces using Sporicidin Disinfectant Solution to remove soil and film, Wipe dry with paper towel, cloth or sponge. TO DISINFECT and DISINFECT and DRY, follow the directions above. Some items cannot be immersed, such as electrical equipment, food, seeds, soft surfaces, cushions, cushions, and other "hot touch" surfaces in and around farm equipment, animal and poultry housing, barns, kennels, breeding pens, hatcheries, trucks and vechicles. Thermocouple wet pre-cleaned surface with Sporicidin Disinfectant Towellettes and allow surface to remain wet for 10 minutes. Use as many towellettes as necessary for the treated area to remain wet for five minutes at room temperature (68°F or above to kill listed organisms).

TO KILL CLEAN AND PREVENT MOLD AND MILDEW: use procedure stated above three applications if new growth appears.

TO SPOT CLEAN, DESODORIZE AND REMOVE DENTS FROM CARPET AND FABRICS: blot or scrub area to be treated with Sporicidin Disinfectant Solution to remove soil. Wipe dry with clean cloth or towel.

FOR FOOD PREPARATION PLANTS: follow pre-cleaning and disinfecting instructions outlined above to disinfect hard, non-porous surfaces and materials in food handling areas, including poultry and packing facilities, slaughterhouses, etc. All surfaces and materials that came in contact with food must be washed with soap and detergent and rinsed with potable water prior to use.

PRECAUTIONARY STATEMENTS: HAZARD TO HUMANS AND DOMESTIC ANIMALS.
\[ \text{CAUTION:} \] Caution: moderate eye irritation. Avoid contact with eyes and clothing. Wash thoroughly with soap and water after handling.

First Aid: If in eyes, remove contact lenses. Hold eye open and slowly rinse with water. If irritation persists, contact a physician or poison control center.

STORAGE AND DISPOSAL: Store at room temperature. Nonrefreezable container. Do not reuse or refill this container. Discard empty container in trash or after offering for recycling if available.

FOR HOSPITAL DISINFECTION: This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (i) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (ii) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to prevent or control microorganisms critical or semi-critical medical devices prior to sterilization or high level disinfection.
