Disinfectant-Cleaner-Sanitizer-Fungicide-Mildewstat-Virucide* - Deodorizer for Hospitals, Institutional and Industrial Use. Effective in hard water up to 200 ppm hardness (calculated as CaCO3) in the presence of soap or detergent.

ACTIVE INGREDIENTS:
- Octyl decyl dimethyl ammonium chloride 1.65%
- Diocly dimethyl ammonium chloride 0.66%
- Alkyl (C11,50%; C12,40%; C16,10%) dimethyl benzyl ammonium chloride 2.20%
- Dioctyl dimethyl ammonium chloride 0.99%
- Dimethyl benzyl ammonium chloride 0.66%
- total: 100.00%

EPA Registration No. 6836-140-10428
EPA Establishment No. 10428-WA-3

Sanitize hard nonporous surfaces of food processing equipment, dairy equipment, food utensils, dishes, and equipment and other stationary hard nonporous surfaces by cloth, sponge or chlorinated water. Apply to sink tops, countertops, plastic cutting boards & chopping blocks, metal and stainless steel.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, on mucous membranes (gastrointestinal, respiratory, urinary, and reproductive tracts, and eyes). 

DIRECTIONS FOR USE CONTINUED

Disinfection / Virucidal / Fungicidal / Mold and Mildew Control Directions: Apply use-solution to hard, nonporous surfaces, thoroughly wetting the surfaces, with a cloth, mop, sponge, sprayer or by immersion. Treated surfaces must remain wet for 10 minutes. For Influenza Virus A treated surfaces must remain wet for 1 minute. Wipe dry with a cloth, sponge or mop or allow to air dry. For heavily soiled areas, a preliminary cleaning is required. For sprayer applications, use a coarse spray device. Spray must not be directed at food products, people, or places where food is prepared. Avoid breathing spray. For fungicidal activity, SANITE 128 F is an effective fungicide against Trichophyton mentagrophytes (the athlete’s foot fungus) in areas such as locker rooms, dressing rooms, shower and bath areas and exercise facilities. SANITE F is a one-step fungicide at 2 oz. per gallon, in 200 ppm hard water and 5% serum. At 2 oz. per gallon in 400 ppm hard water, SANITE 128 F must be used on precleaned surfaces. For mold and mildew at 2 oz. per gallon, SANITE 128 F will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, nonporous surfaces. Follow disinfection instructions. Repeat treatment every seven days, or more often if new growth appears. Wipe all surfaces that come in contact with food such as countertops, appliances, tables and stovetops with potable water before reuse. Do not use on utensils, glassware and dishes as a disinfectant. Prepare a fresh solution daily or more often if the solution becomes visibly dirty or discolored. This product is not for use on mechanical dishwashing equipment. To Sanitize Non-food Contact Surfaces: Use SANITE 128 F per gallon of water (1/2 oz. of SANITE 128 F per 2 gallons of water) to sanitize hard nonporous surfaces that remain wet for 60 seconds. Wipe dry with a sponge, mop or cloth or allow to air dry.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without first notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contain water, food or feed for storage or disposal.

Pesticide Storage: Open dumping is prohibited. Store in original container in areas inaccessible to children.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray drift, or1 rinsates is a violation of Federal Law. If these wastes cannot be disposed of by use according to federal, state or local instructions, contact the State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Fill container 1/4 full with water and release the container. Agitate vigorously, and dispose of rinsate consistent with pesticide disposal instructions. Repeat two more times. Then for recycling or available and warehouse and in other storage practices approved by state and local authorities. Follow pesticide label instructions for disposal of rinsates. If too much rinsate is generated, these containers are acutely hazardous wastes and must be disposed in accordance with local, state, and federal regulations.

KEEP OUT OF REACH OF CHILDREN

DANGER (PELIGRO)

See Side panel for Precautionary Statements and First Aid

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Before use in federally inspected meat and poultry processing plants and dairy, food products and packaging materials must be removed from the room or carefully protected.
