**PRECAUTIONARY STATEMENTS**

**HAZARD TO HUMANS & DOMESTIC ANIMALS**

**DANGER**

CORROSIVE. CAUSES IRREVERSIBLE EYE DAMAGE AND SKIN BURNS. HARMFUL, IF SWALLOWED. HARMFUL, IF ABSORBED THROUGH SKIN. HARMFUL IF INHALED. AVOID BREATHING SPRAY MIST. DO NOT GET IN EYES, ON SKIN, OR ON CLOTHING. PROLONGED OR FREQUENTLY REPEATED SKIN CONTACT MAY CAUSE ALLERGIC REACTION IN SOME INDIVIDUALS. REMOVE CONTAMINATED CLOTHING AND WASH CLOTHING BEFORE REUSE.

Mixers, loaders, and others exposed to this product must wear long-sleeved shirt and long pants; chemical resistant gloves such as nitrile or butyl rubber; shoes plus socks; goggles and face shield; and chemical resistant apron. Discard clothing or other absorbent materials that have been drenched or heavily contaminated with this product’s concentrate. Do not reuse them. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Users should wash hands before eating, drinking, chewing gum, or smoking and after using the toilet. Users should remove clothing immediately. Pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly. This product may cause skin sensitization reactions in some people. This product is corrosive to mild steel.

ENVIRONMENTAL HAZARDS: This chemical is toxic to terrestrial and aquatic plants, fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a NPDES permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage-treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA. STORAGE AND DISPOSAL

PESTICIDE STORAGE: This product is corrosive to mild steel. Do not store or transport in unlabeled metal containers. Do not contain water, food or feed by storage, disposal, or cleaning of equipment.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instruction, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional office for guidance.

CONTAINER DISPOSAL:

Nonrefillable container. Do not reuse or refill this container. Triple rinse or pressure rinse. In unlined metal containers.

Disposal of the container and its labeling. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons.

INDUSTRIAL RECIRCULATING WATER COOLING TOWERS, INDUSTRIAL RECIRCULATING CLOSED LOOP WATER COOLING SYSTEMS, BREWERY PASTEURIZERS, AND CAN WARNER SYSTEMS

For the control of bacteria, algae, and fungi, add Chemical Treatment CL-2150 to industrial recirculating closed loop water cooling systems, industrial recirculating closed loop water cooling systems, brewery pasteurizers, and can warmer systems. Add Chemical Treatment CL-2150 at some point in the system to ensure uniform mixing.

**FIRST AID**

If in eyes:

*Hold eye open and rinse slowly and gently with water for 15 – 20 minutes.*

*Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.*

*Call a poison control center or doctor for treatment advice.*

If on skin:

*Take off contaminated clothing.*

*Rinse skin immediately with plenty of water for 15 – 20 minutes.*

*Call a poison control center or doctor for advice.*

If ingested:

*Move person to fresh air.*

*If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth.*

*Call a poison control center or doctor for advice.*

If swallowed:

*Call a poison control center or doctor immediately for advice.*

*Do not induce vomiting unless told by a poison control center or doctor.*

*Have person sip a glass of water if able to swallow.*

**NOTE:** The product container or label with you when calling a poison control center or doctor before being treated.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsions may be needed.

---

**CHEMICAL TREATMENT**

**CL-2150**

Industrial microbiocide for use in recirculating water cooling towers, air washer systems, paper mill slime control, recirculating closed loop water cooling systems, brewery pasteurizers, and can warmer systems.

**ACTIVE INGREDIENT:**

5-Chloro-2-methyl-4-isothiazolin-3-one………………1.11%  
2-Methyl-4-isothiazolin-3-one…..........................0.39%  
INERT INGREDIENTS:  
98.5%  
TOTAL……………………………………100.0%

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

See Side Panel for Additional Precautionary Statements

---

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons.

---

**PAPER MILLS**

Chemical Treatment CL-2150 is recommended for the control of bacterial and fungal slime in the production of paper.

**Point of addition:** Chemical Treatment CL-2150 should be added to a point in the system to ensure uniform mixing such as the heater, hydrodupper, or fan or broke storage pumps.

**Dosage:** Apply 0.44 to 1.5 lbs (7.23 fluid ounces) of Chemical Treatment CL-2150 per 1000 gallons of water in the system. Repeat until control is achieved. Badly fouled systems should be cleaned before treatment is begun.

**Subsequent Dose:** When microbial control is evident, add 35-219 ppm Chemical Treatment CL-2150 (0.3-1.86 pounds or 4.5-28 fluid ounces of Chemical Treatment CL-2150 per 1000 gallons of water) in the system weekly, or as needed to maintain control.

---

**AIR WASHERS**

Chemical Treatment CL-2150 is used to control bacteria in industrial air washing systems that maintain effective mass eliminating bacteria and other deposits.

**Initial Dose:** When the system is noticeably fouled, apply 1.26-7.46 lbs (19-113 fluid ounces) of Chemical Treatment CL-2150 per 1000 gallons of water in the system. Repeat until control is achieved.

**Subsequent Dose:** When microbial control is evident, add 0.3 to 1.86 lbs. (4.5-28 fluid ounces) Chemical Treatment CL-2150 per 1000 gallons of water in the system weekly, or as needed to maintain control. Badly fouled systems should be cleaned before treatment is begun.
