**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

1. **PRECAUTIONARY STATEMENTS**

   **Hazard to Humans and Domestic Animals.**

   **Caution:** Poison. Corrosive. May cause severe irritation or injury to eyes or skin and internal organs. Harmful when swallowed, inhaled, or absorbed through the skin. Harmful by inhalation or ingestion. Avoid contact with eyes, skin, and mucous membranes. This product is not compatible with chlorine bleaches or certain detergents.

   **HAZARDS TO HUMANS AND DOMESTIC ANIMALS.**

   **Wash and flush all exposed body parts immediately with large volumes of water.**

   **Vomiting:** If a person has vomited, do not give anything by mouth, and call a poison control center or doctor for treatment. Gastric lavage may be indicated if vomiting does not occur, or if the person is unresponsive. See back panel for additional precautionary statements.

   **Inhalation:** If exposed, move the person to fresh air. If breathing has stopped, provide artificial respiration, preferably by mouth-to-mouth, if possible. See back panel for additional precautionary statements.

   **Ingestion:** Do not induce vomiting. See back panel for additional precautionary statements.

   **Skin contact:** If skin contact occurs, wash thoroughly with soap and water. See back panel for additional precautionary statements.

   **Eye contact:** Immediate treatment is critical. If exposure time was short, flush eyes for 15 minutes. If exposure time was long, or if discomfort persists, flush eyes for 15 minutes. See back panel for additional precautionary statements.

   **Cleaning:** After exposure, wash all exposed surfaces with soap and water. Disinfect with Pine Clean or equivalent cleaner and disinfectant. See back panel for additional precautionary statements.

   **Disposal of empty container:** See back panel for additional precautionary statements.

   **PESTICIDE STORAGE**

   - **Store in a dry place no lower in temperature than 50°F or higher than 125°F. Do not store in a highly flammable container in an area susceptible to cooking, heating, or on clothing. Wear goggles or face shield, rubber gloves, and protective clothing. May be fatal if swallowed, inhaled, or on skin.**

   - **Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, rubber gloves, and protective clothing. May be fatal if swallowed, inhaled, or on skin.**

   - **Gases, Vapors, and Other Harmful Substances:**

     - **Inhalation:** If exposed, move the person to fresh air. If breathing has stopped, provide artificial respiration, preferably by mouth-to-mouth, if possible. See back panel for additional precautionary statements.

     - **Ingestion:** Do not induce vomiting. See back panel for additional precautionary statements.

   - **Cleaning:** After exposure, wash all exposed surfaces with soap and water. Disinfect with Pine Clean or equivalent cleaner and disinfectant. See back panel for additional precautionary statements.

   **CORROSION:**

   - **Wear gloves, goggles, or face shield, and protect clothing. Do not use or store near heat or open flame.**

   **HAZARDS TO HUMANS AND DOMESTIC ANIMALS.**

   - **WARNING:** May cause severe irritation or injury to eyes, skin, and mucous membranes. Do not use or store near heat or open flame. Keep out of reach of children.

   **KEEP OUT OF REACH OF CHILDREN**

   - **DANGER:** Use this product in a well-ventilated area out of direct sunlight. See back panel for additional precautionary statements.

   **FIRST AID**

   - **If eye contact occurs:** Wash eyes with large volumes of water for 15 to 20 minutes. Call a poison control center or doctor before removing contact lenses.

   - **Agitate vigorously. Drain for 10 seconds, then offer for recycling or reconditioning. If not available, triple rinse container promptly after emptying.**

   - **HAZARDS TO HUMANS AND DOMESTIC ANIMALS.**

     - **Avoid inhalation.**

   - **Wash and flush all exposed body parts immediately with large volumes of water.**

   - **Inhalation:** If exposed, move the person to fresh air. If breathing has stopped, provide artificial respiration, preferably by mouth-to-mouth, if possible. See back panel for additional precautionary statements.

   - **Wash and flush all exposed body parts immediately with large volumes of water.**

   - **Wash and flush all exposed body parts immediately with large volumes of water.**
