This product is efficient, economical and stable in use dilution. It is compatible with most chemicals used in spa or hot tub water and will not damage tile, concrete, metal or plastics. Do not pre-mix with any foreign material, such as soap or other chemicals before application. This product works best when added [in several places] by itself directly to spa or hot tub water with the pump running. Wait 15 minutes before entry of swimmers. Spas or hot tubs with heavy growth of algae should be cleaned prior to using this product.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

INITIAL TREATMENT: For visible algae growth or slimy interior, add 6-8 ounces of this product for every 500 gallons of spa water. For best results, spas containing heavy algae growth should be drained and cleaned prior to treatment.

MAINTENANCE: After the initial treatment, keep your spa free of algae growth by adding 1-2 ounces for every 500 gallons of spa water every 5-7 days. This product is compatible with other spa chemicals. It can be used in conjunction with chlorine or bromine and may reduce the amount of those chemicals required.

IMPORTANT NOTE: Always apply chemicals separately. Never combine them.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

FIRST AID
