PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

CORROSIVE. Causes irreversible eye damage. Do not get in eyes or on clothing. May be fatal if inhaled. Do not breathe vapor or spray mist. Harmful if swallowed. Harmful if absorbed through skin. Avoid contact with skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

User Safety Recommendations:

User should wash hands before, eating, drinking, chewing gum, using tobacco, or using the toilet.

User should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Personal Protective Equipment (PPE):

- Mixers, loaders, applicators, and other handlers must wear:
  - long-sleeved shirt, long pants, shoes and socks, and
  - chemical-resistant gloves (such as any waterproof material, selection category A),
  - goggles or face shield,
  - a respirator with an organic-vapor removing cartridge with a prefilter (such as any waterproof material, selection category A),
  - eye shield, or face shield, if necessary.

FIRST AID

IF IN EYES:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing.
- Call a poison control center or doctor for treatment advice.

IF INHALED:
- Move person to fresh air.
- If person is not breathing call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

IF SWALLOWED:
- Call a poison control center or doctor immediately for treatment advice. Do not give any liquid to the person.
- Do not induce vomiting unless told to by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

KEEP OUT OF REACH OF CHILDREN

DANGER

SOLD FOR INDUSTRIAL USE

See Side Panel for Additional Precautionary Statements

IN CASE OF EMERGENCY:
CALL 1-800-424-9300
Net Weight:
Manufactured for:
Troy Chemical Company Limited
242 Applewood Crescent, Unit 14
Concord, Ontario L4K 4E5 Canada
1-800-461-9364

ACTIVE INGREDIENT: ........................................ % Weight
Hexahydro-1,3,5-tris(2-hydroxyethyl)-s-triazine...... 78.5%
INERT INGREDIENTS ........................................ 21.5%
TOTAL .....................................................100.0%

Bactericide for the Preservation of Adhesives, Metal Cutting Fluids and Coolants, Construction products-Cementitious Admixtures, Joint Cements, Resin Emulsions and Pigment Dispersions for Non-Paint Use.

ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SOLUBLE EMULSION, SYNTHETIC AND SEMI-SYNTHETIC CUTTING FLUIDS AND COOLANTS

GROTAN should be used at a dilution of 0.15%.

For best results, drain and clean the system before adding fresh cutting fluid. Add 0.15% of GROTAN to the use dilution (1.2 pints per 100 gallons of diluted cutting fluid). GROTAN should be added to the use dilution of the make-up fluid. To inhibit the growth of bacteria in metalworking, cutting fluids, cooling, and lubricating fluids add GROTAN to the metalworking concentrate that will result in a 0.15% concentration. For example, add 3% GROTAN to a metalworking fluid concentrate that will be diluted to 5% in water for use.

For all other uses (Adhesives, Construction products-Cementitious admixtures, joint cements, pigment dispersions, asphalt emulsions and resin emulsions for non-residential use) use levels from 0.1-0.3% based on the total weight of the formulation. Grotan should be added to the latter phase of the formulating process. It should not be exposed to temperatures exceeding 125°F (52 °C) for prolonged periods of time. Further it is not suitable for systems with a pH below 7. Grotan may also be used to control microbial growth at the air-water interface of paint manufacturing raw material storage tanks. A 1.0% aqueous solution of Grotan may be sprayed over the surface. Care should be taken to avoid removal of this interface in paint production. NOTE: May cause discoloration. Color stability in systems should be checked before use.

SUB-SECTION: METALWORKING FLUIDS/MATERIAL PRESERVATIVE

GROTAN®

ACTIVE INGREDIENT:

EPA Reg. No. 365-76
EPA Establishment Number 5383-NJ-1

Pesticide Storage

Store in original container.

Pesticide Disposal:

Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

Container Handling:

Nonrefillable container. Do not reuse or refill this container. Container empty by applying empty emulsifier. Empty contents into a tank or mix tank. Fill the container ¼ full with water. Replace and tighten closures. Use in the container for at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinse into a disposal tank or mix tank rinse container for later use or disposal. Repeat this procedure two more times. Then offer for recycling or reconditioning if available, or puncture and dispose of in a sanitary landfill, or incinerator, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE:

Store in original container.

PESTICIDE DISPOSAL:

Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.
