**PRECAUTIONARY STATEMENTS**

**Hazard to Humans & Domestic Animals**

**DANGER**: Corrosive. Causes eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed or absorbed through skin. Avoid contact with eyes or skin.

**DIRECTIONS**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**PRODUCT INFORMATION**

Once contamination of major housing structures in industries and industrial areas such as greenhouses, flower shops, food storage facilities and farms, NACCOSAN has been formulated to aid in the reduction of cross-contamination in these areas.

NACCOSAN is a one-step disinfection/dewax concentrate that when used as directed effectively against a broad spectrum of bacteria, is fungicidal and will prevent the growth of mold and mildew on treated surfaces.

NACCOSAN has been formulated to aid in the reduction of cross contamination in these areas. For use in greenhouses and flower shops. Use to sanitize walls, floors and other hard surfaces to be treated. 

**PRODUCT DIRECTIONS FOR DISINFECTION**

Prepares the use solution by mixing 0.5 fluid ounces in one gallon of water. For five minutes all treated surfaces must remain wet for 10 minutes; allow solution to dry on treated surfaces. A contact time of 1 minute is required for sanitation. Apply prepared solution by appropriate means, such as with a cloth, sponge, mop, or commercial/chemical spray device, or by immersion. This product should not be used on heavily soiled areas, a preliminary cleaning is required. Prepared solution is ready to use or when solution becomes visibly dirty.

**PRODUCT DIRECTIONS FOR SANITATION**

For use in greenhouses and flower shops. Use to sanitize walls, floors and other hard surfaces to be treated.

**PRODUCT DIRECTIONS FOR MOLD & MILDEW CONTROL**

For use as a Sanitizing dressing when mixed with 402 ppm Hardness. (Calculated as CaCO3, in the Presence of 5% Serum Contamination). 

**PRODUCT DIRECTIONS FOR INSTITUTIONAL & INDUSTRIAL USE**

Call a poison control center or doctor for treatment advice.

**FIRST AID**

**In Eyes**

Have person sip a glass of water if able to swallow. Hold eye open and rinse slowly and gently with water for 15-20 minutes.

If Solution gets into the eyes, flush with plenty of water for 15 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If in Contact with Skin:

Wash skin with soap and water for 15 minutes. If on clothing, remove clothing as appropriate; or dispose of in a sanitary landfill. Recycle, if available; or recondition, if appropriate; or dispose of in a sanitary landfill.

**STORAGE & DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. PESTICIDE STORAGE: Store in original container in a cool, dry (preferably locked) area inaccessible to children and domestic animals. Do not reuse empty container.

**PESTICIDE DISPOSAL**: Pesticide wastes are hazardous. Improper disposal of excess pesticide, spray mixture or rinsates is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact the National Pesticide Information Center, or the Hazardous Waste representative at your local EPA Regional Office for guidance.

**CONTAINER DISPOSAL**

Non-refillable container; do not reuse or refill this container. This product must be discarded promptly, after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Rinse into application equipment or a mix tank for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times, then offer for recycling, if available; or recondition, if appropriate; or dispose of in a sanitary landfill.
