LENORM H G
Cleaner, Disinfectant, Bactericide, Detergent, Fungicide (against pathogenic fungi), Deodorizer, 
**Virocide, Mildewstat (on hard, non-porous, inanimate surfaces),
KILLS GERMS**

**FIRST AID**

From the product container or with soap and water if possible; a primary control center or local poison control center should be called at once. In case of contact to eyes, flush with water for at least 15 minutes. Remove contact lenses, if possible, after the first 5 minutes, then continue flushing. Do not attempt to insert any foreign object into an eye. If swallowed, do not induce vomiting unless told to do so by the poison control center. Give 1 to 2 ounces of water. If vomiting occurs, see medical attention right away. After exposure, rinse skin thoroughly with water. If an injury occurs, seek medical attention immediately.

**KEEP OUT OF REACH OF CHILDREN**

**DIRECTIONS FOR USE**

This product is a phosphate free formulation designed to provide effective cleaning, deodorization, and disinfecting in the home. It can be used in healthcare settings to clean and disinfect a variety of hard, non-porous surfaces. This product is suitable for use in hospitals, on food contact surfaces: utensils, glassware and dishes. This product is designed to provide both general cleaning and disinfecting. This product is used to disinfect toilet bowls: heavily soiled areas, a pre-cleaning step is required. Prepare a fresh solution for each use. This product is designed to provide both general cleaning and disinfecting. To disinfect inanimate, hard, non-porous surfaces add 2 ounces of this product per gallon of water. This product is also fungicidal against the fungus that causes Athlete’s Foot. At the 2 ounces per gallon dilution, this product is also fungicidal against the fungus that causes Athlete’s Foot. The 2 ounces per gallon dilution of this product is effective against the viruses listed below for 10 minutes contact time. It is recommended when cleaning bathroom fixtures, kitchens, countertops, sinks, exteriors of microwaves, refrigerators, stoves, and other kitchen surfaces. This product is designed to provide both general cleaning and disinfecting. This product is used to disinfect toilet bowls: heavily soiled areas, a pre-cleaning step is required. Prepare a fresh solution for each use.
