MODEL 105C FOR USE WITH CYCLER SERIES
100, 120, & 200
PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: CORROSIVE: Strong oxidizing agent. Non-refillable container. Do not attempt to re-use. Place any water or chemicals ingested immediately into the product. Do not attempt to re-use. Do not allow to come in contact with eyes or mouth or skin, and do not breathe vapors. Danger: Corrosive: Strong oxidizing agent. Non-refillable container. Do not attempt to re-use. Place any water or chemicals ingested immediately into the product. Do not attempt to re-use. Do not allow to come in contact with eyes or mouth or skin, and do not breathe vapors.

PHYSICAL OR CHEMICAL HAZARDS: Corrosive: Strong oxidizing agent. Non-refillable container. Do not attempt to re-use. Place any water or chemicals ingested immediately into the product. Do not attempt to re-use. Do not allow to come in contact with eyes or mouth or skin, and do not breathe vapors.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE AND DISPOSAL: In case of decomposition, isolate container away from fire/explosion or unstabilized chlorinating compounds (e.g., calcium hypochlorite). Such use may cause fire or explosion.

The warranty will be void if this pac is not used with the appropriate New Water Cycler. The conveniently disposable pac lets you control the rate of chlorine delivery to meet changing conditions in your pool by simply adjusting the control dial on the New Water Cycler. It is a violation of federal law to use this product in a manner inconsistent with its labeling. It is a violation of federal law to use this product in a manner inconsistent with its labeling.

PRODUCT DESCRIPTION: It is a violation of federal law to use this product if it is not used with the appropriate New Water Cycler. The conveniently disposable pac lets you control the rate of chlorine delivery to meet changing conditions in your pool by simply adjusting the control dial on the New Water Cycler. It is a violation of federal law to use this product in a manner inconsistent with its labeling.

USE DIRECTIONS:

1. Adjust pH level to 7.2 - 7.8.
2. Bring Free Available Chlorine (FAC) to residual of 1.0 - 1.5 ppm using a chlorine shock. Follow Manufacturer’s label directions.
3. Stabilize the pool with trichloro-s-triazinetrione, before physiologic’s label directions.
4. Set up the New Water Cycler to the appropriate setting.
5. Place the pac into the New Water Cycler.
6. Start the New Water Cycler.
7. Periodically check the pac and replace with a new one when empty. Do not attempt to re-use.
8. Some settling may occur during shipment. Do not remove label #20-43-1432.

STORAGE AND DISPOSAL: Some settling may occur during shipment. Do not remove label #20-43-1432.

Available Chlorine: 90%
Total: ...................................100.0%
Trichloro-s-triazinetrione:..99.0%
Active Ingredient:
Note to Physician

• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.
• Call poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by the poison control center or doctor.
• Do not give anything by mouth to an unconscious person.
• Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

THE EASIER ALTERNATIVE TO BULK CHLORINE

The No-Hassle Way to a Clean Pool

- Pre-filled
- Lightweight
- Easy to Use
- Less Odors

CYCLER PAC OR REPLACEMENT CHAMBER
AUTOMATIC WATER TREATMENT PAC/CHAMBER
PRE-FILLED WITH CHLORINE

20-44-1023
55304134R6N

What Makes This Pool Care System Better than the Rest?

1. Convenient
   Pre-filled pac/chamber eliminates guesswork for chlorine for greater safety and convenience.

2. Precise
   The control dialed predeterminates just the right amount of sanitization for each pool.

3. Long Lasting
   Trapped air in pac/chamber keeps chlorine dry to start season with less consumed per season.

4. Reliable
   Water cycles through only a small amount of chlorine for more uniform and reliable output.

STORE IN A COOL, DRY PLACE
IN CASE OF EMERGENCY CALL CHEMTREC AT 1-800-424-9300.

Trichloroisocyanuric Acid, Dry
Class 5.1 (Oxidizer), UN 2648, PGII
STORAGE AND DISPOSAL: Do not contaminate water sources.

ENVIRONMENTAL HAZARDS: May cause fire or explosion.

PHYSICAL OR CHEMICAL HAZARDS: May cause burns or injury.

CORROSIVE: Strong oxidizing agent. Non-refillable container. Do not reuse or refill this container.

ANIMALS: DANGER: CORROSIVE: See additional precautionary statements on back panel.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: CORROSIVE: Use appropriate caution.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: CORROSIVE: See additional precautionary statements on back panel.

HAZARDS TO OTHER ANIMALS: DANGER: CORROSIVE: See additional precautionary statements on back panel.

ENVIRONMENTAL HAZARDS: May cause fire or explosion. Compounds (e.g., calcium hypochlorite). Such use is not recommended.

Containers: Storing and shipping. 

Recommended: Store container in a cool, dry place.

Recommended: Do not store near heat or flame.

Recommended: Do not store in the presence of organic materials.

Recommended: Do not store in the presence of water or water solutions.

Recommended: Store container in an upright position.

Recommended: Store container in a well-ventilated area.

Recommended: Store container in a location where it will not be exposed to direct sunlight.

Recommended: Store container in a location where it will not be exposed to moisture.

Recommended: Store container in a location where it will not be exposed to extreme temperatures.

Recommended: Store container in a location where it will not be exposed to corrosive materials.

Recommended: Store container in a location where it will not be exposed to incompatible materials.

Recommended: Store container in a location where it will not be exposed to incompatible environments.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments. Use appropriate caution.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments. Use appropriate caution.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments. Use appropriate caution.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments. Use appropriate caution.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments. Use appropriate caution.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments. Use appropriate caution.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments. Use appropriate caution.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments. Use appropriate caution.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments. Use appropriate caution.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments. Use appropriate caution.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments. Use appropriate caution.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments. Use appropriate caution.

Recommended: Store container in a location where it will not be exposed to incompatible materials and environments. Use appropriate caution.

Note to Physician
• Hold eye open and rinse slowly and gently with water for 15-20 minutes. Keep eye open by holding upper and lower eyelids open with fingers. Call a poison control center or doctor for treatment advice.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
• Call poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by the poison control center or doctor.
• Do not give anything by mouth to an unconscious person.
• Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
• Call a poison control center or doctor for treatment advice.
• Probable mucosal damage may contraindicate the use of gastric lavage.

The EASIER ALTERNATIVE TO BULK CHLORINE

The No-Hassle Way to a Clean Pool

MODEL #01-03-4613

• Pre-filled
• Lightweight
• Easy to Use
• Less Odors

CYCLER PAC OR REPLACEMENT CHAMBER
AUTOMATIC WATER TREATMENT PAC/CHAMBER
PRE-FILLED WITH CHLORINE

553041345R6N

What Makes This Pool Care System Better than the Rest?

MODEL #01-03-4613

• Convenient
Pre-filled pac/chamber eliminates exposure to chlorine for greater safety and convenience.

• Long Lasting
Trapped air in pac/chamber keeps chlorine dry so lasts longer with less contained per season.

• Precise
The control dial precisely meters out just the right amount of sanitizer for each pool.

• Reliable
Water cycles through only a small amount of chlorine for more uniform and reliable output.
