KILLS RATS, HOUSE MICE & MEADOW VOLES*

Mold Resistant • Moisture Resistant
Peanut Flavored

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-throated woodrat, Southern plains woodrat, Bushy-tailed woodrat, and Mexican woodrat.
**USER SAFETY REQUIREMENTS**

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after wash PPE separately from other laundry. Remove PPE immediately after

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

**DISPOSAL**

Do not dispose of this product into the environment. Do not place near or inside ventilation duct openings. Do not contaminate water, food, feedstuffs, food or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. When used in USDA inspected facilities, this product must be used in tamper-resistant bait stations. Do not broadcast bait. Do not sell or distribute this product in individual containers holding less than 4 pounds of bait.

**APPLICATION DIRECTIONS:** Each DITRAC All-Weather Cake consists of a one-pound slab scored to be broken into sixteen 1 oz. pieces.

**Rats:** Break and apply 4 to 16 pieces of bait per placement (usually at intervals of 15 to 30 feet) per placement. Maintain a constant supply of fresh bait for 10 days or until signs of rat activity cease.

**House Mice, Eastern Harvest Mouse**, **Golden Mice**, and **Meadow Voles**: Use one-1 oz. piece per bait placement. Space placements at 8 to 12 foot intervals. Two-1 oz. pieces may be needed at points of very high activity.

**FOLLOW-UP:** Replace contaminated or spoiled bait immediately. Wearing waterproof gloves, collect and properly dispose of all visible dead animals and leftover bait. To discourage reinfection, limit sources of rodent food, water, and harborage as much as possible. If reinfection does occur, repeat treatment. For a continuous infestation, set up permanent bait stations and replenish bait as needed.

**NOT FOR USE:** Not permitted for use against the following species in California: **Cotton rat**, **Eastern harvest mouse**, **Golden mouse**, **Polynesian rat**, **Meadow vole**, **White-throated woodrat**, **Southern plains woodrat**, **Bushtailed woodrat**, **and Mexican woodrat.**

**STORAGE INSTRUCTIONS:** Store unused product out of reach of children and pets. Keep containers closed and away from other chemicals. Do not store or allow exposure to water, food, feedstuffs, or milk or meat handling equipment or surfaces that come into direct contact with food. When used in USDA inspected facilities, this product must be used in tamper-resistant bait stations. Do not broadcast bait.
