KEEP OUT OF REACH OF CHILDREN

CAUTION

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice.
Do not induce vomiting unless told to do so by the poison control center or doctor.
Do not give any liquid to a person.
Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing.
Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing.
Rinse skin immediately with plenty of water for 15 - 20 minutes.
Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air.
If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth, if possible.
Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact Chemtrec at 1-800-424-9300 for emergency medical treatment.

NOTE TO PHYSICIAN
Contains petroleum distillate. Vomiting may cause aspiration pneumonia.
See additional precautionary statements below.

#019492
NET CONTENTS 2.5 U.S. GALS. (9.46 L.)

Manufactured for: LESCO, Inc., 1301 East 9th Street • Cleveland, OH 44114-1849
**Horticultural Oil Insecticide**

**DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**How much to use:** For all fruit trees, except Citrus, use this product at the rate of 1.0 to 4.0 gallons per 100 gallons of water. Apply to control the listed insects. Observe "When to Apply" for each crop. NOTE: All rates are calculated for mature trees with normal foliage cover; unless otherwise indicated. Rates should be reduced proportionally for smaller trees.

### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

### PHYSICAL AND CHEMICAL HAZARDS

Do not use, pour, spill, or store near heat or open flame.

### STORAGE AND DISPOSAL

**Prohibitions:** Do not contaminate water, food, or feed by storage or disposal; open dumping is prohibited.

**Storage:** Store in a cool, dry, locked area out of the reach of children. Keep container tightly closed in storage to prevent entry of water.

**Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Disposal:** Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning, if burned, stay out of smoke.

### IMPORTANT NOTES

Roll drum before use. All horticultural oils interfere with or slow plant transpiration and respiration during the period of evaporation. Do not apply during periods of drought or when plants exhibit moisture stress. Phytotoxicity may result if sprayed on plants during periods of prolonged high temperature and high relative humidity. Do not use in combination with or immediately before or after spraying with chlороphosphates, fungicides such as Captan®, Folpet®, Dithane®, Morestop® or any other product containing sulfur. Spray no more than 4 times during the growing season; two week minimum application interval. Do not spray when buds have fully opened and shoot elongation is occurring. Do not spray when there is obvious moisture deficit in leaves, or the plant is under stress. Keep away from open blooms; bleaching and spotting has been observed with the open blooms of certain plants.

### TANK MIXES

Users are required to read and follow all directions and restrictions on the labels of the proposed tank mix products. Use 1% Horticultural Oil Insecticide (1 Gallon Horticultural Oil per 100 Gallons of finished solution) in combination with other products. Test all combinations prior to use to ensure compatibility. LESCO® waives all liability for any such use to the extent allowed by law. User assumes all risk for any such use.

### ORNAMENTAL PLANTS

Oil may remove the glaucous (blue) bloom from such evergreens as Colorado Blue Spruce and Koster Spruce. Use with caution and reduced dosage for summer application on Japanese Red Maple, Amur Maple, and Black Walnut. Use with caution and reduced dosage for dormant application on Sugar Maple, Redbud, Japanese Holly, Cryptomeria, Chamaecyparis, Red Cedar and Smoke Tree.

### CITRUS

Oils applied after October may increase cold damage to trees; applied in August and September may affect solid contents, may retard color.

### WHEN TO APPLY

Follow the spray schedule outlined in the Directions For Use or specified by your State Agricultural Extension Service Spray Guide for seasonal applications of Horticultural Spray Oils.

### CONTROLS

A wide range of mites and insect pests in the egg stage such as: spider and eriophyid mites, armored and soft scales, mealy-bug, psyllids, whiteflies, aphids, leafrollers, leafhoppers, webworms, cankerworms, plant bugs, leafhoppers, and adelgids. Use other insecticides near spray coverage to the insect.

### WARRANTY

LESCO Inc. warrants that this insecticide conforms to the chemical description on its label. When used in accordance with label directions under normal conditions, this insecticide is reasonably fit for its intended purposes. Since timing, method of application, weather, plant, and soil conditions, mixture with other chemicals, and other factors affecting the use of this product are beyond our control, no warranty is given concerning the use of this product contrary to label directions or under conditions which are abnormal or not reasonably foreseeable. The user assumes all risks of any such use.
