<td>8 fl oz</td>
<td>This product is formulated to complement swimming pool water being treated with the BioGuard SoftSwim System. It is effective against the growth of algae. This water-soluble agent in this product allows it to penetrate small crevices where algae is likely to form. This product is efficient and non-staining when used as directed. This product will not evaporate and its algae-fighting ability actually increases as pool water temperature increases. The residual effectiveness of this product needs to be stabilized with the total chemical treatment system. This product may foam and therefore should not be used for spa treatment. Use in pools with attached spas or jetted returns.</td>
</tr>
<tr>
<td>20 fl oz</td>
<td>Place 32 fluid ounces per 25,000 gallons of water for routine maintenance. For weekly applications, use 1 fluid ounce per 5,000 gallons of water. For high chlorine applications, use 2 fluid ounces per 5,000 gallons of water (1 part) every other week. Following heavy rain showers, add an additional 1 fluid ounce per 5,000 gallons. For an initial application or when pool water is changed, place 1 fluid ounce per 5,000 gallons of water.</td>
</tr>
<tr>
<td>22 fl oz</td>
<td>For routine maintenance, use 1 fluid ounce per 5,000 gallons of water. For weekly applications, use 2 fluid ounces per 5,000 gallons of water. For high chlorine applications, use 4 fluid ounces per 5,000 gallons of water. For an initial application or when pool water is changed, place 3 fluid ounces per 5,000 gallons.</td>

**Precautionary Statements:** Hazards to Humans and Domestic Animals: Avoid contact with eyes, skin, and clothing. Do not breathe vapor or spray mist. Wear protective overgarments (long-sleeved, long-sleeved, or safety glasses), protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

**Storage and Disposal:** Store this product in original tightly closed container when not in use. Keep out of reach of children. Place container in a safe location away from heat or open flame. Do not store near water, food, or feed by storage and disposal. Do not reuse or refill this container. Wrap container and put in trash or offer for recycling if available.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

**Ensure all pool equipment is working properly.** Backwash the filter system following manufacturer's directions. Adjust pH to between 7.2-7.6. Check for metals and 7 percent acid and scale inhibitor to prevent staining of pool surface due to metals. When using other products, an extended period of time may be required for these products. Wait at least 15 minutes after application before entering pool.

**To Determine Pool Capacity:** Rectangular Pools - Length times width times average depth (in feet) times 7.5 equals gallons. Round and Oval Pools - Long diameter times short diameter times average depth (in feet) times 5.9 equals gallons. Length times width times average depth (in feet) times 5.9 equals gallons.

**Physical or Chemical Hazards:** Do not use with other chemicals.

**Environmental Hazards:** This pesticide is toxic to fish and aquatic invertibrates. Note: Buyer assumes all responsibility for safety and use not in accordance with directions.

**KEEP OUT OF REACH OF CHILDREN**
