PARA-MOTH®
INSECTICIDE
For the control of moths in beehives and bee housings.

ACTIVE INGREDIENT: para-Dichlorobenzene* (1,4-dichlorobenzene) ........................................ 99.94%
OTHER INGREDIENT: .................................................................................................................. 0.06%
TOTAL: .................................................................................................................................. 100.00%
*CAS No. 106-46-7

KEEP OUT OF REACH OF CHILDREN
WARNING

FIRST AID
If in Eyes • Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

If on Skin or Clothing • Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

If Swallowed • Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to by a poison control center or doctor.
• Do not give anything to an unconscious person.

If Inhaled • Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth if possible.
• Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER
Have the product container or label with you when calling a poison control center, doctor, or going for treatment. You may also contact CHEMTREC 1-800-424-9300 (24 hours) for emergency medical information.

NET WT. 35 pounds (lbs.) (15.88 kg.) OR
1 pound (lb.) (0.45 kg) OR
5 pounds (lbs.) (2.3 kg.)

LOT NUMBER:

Dichlorobenzene, para, solid
UN3077, RQ (Dichlorobenzene)
MANN LAKE LTD.
501 1st Street S.
Hackensack, MN 56452-2589
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
WARNING

Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Wear goggles or face shield. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment (PPE):
All applicators and other handlers must wear:
- Long sleeve shirt,
- Long pants,
- Shoes plus socks.

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

USER SAFETY RECOMMENDATIONS
- Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARD
This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewerage treatment plant authority. For guidance contact your State Water Board or regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD
COMBUSTIBLE. Do not use or store near heat or open flame.

NOTICE: California has determined that a chemical contained in this product causes cancer based on its tests performed on laboratory animals.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

IMPORTANT: This product can be harmful to children when ingested. Do not allow children to ingest the product.

GENERAL PRECAUTIONS: DO NOT USE FOR COMB HONEY. CUT COMB HONEY OR COMBS OF HONEY THAT HAVE NOT BEEN EXTRACTED.

APPLICATION INSTRUCTIONS:
- To be used for empty extracted combs when in storage.

WAX MOTH CONTROL DIRECTIONS: Treatment with para-dichlorobenzene requires no special storage facilities.
- Stack the supers as tightly as possible and special precautions should be taken to see that the gas, which is heavier than air, cannot escape at the bottom of the stack. This can be accomplished by laying several layers of newspaper down prior to stacking the supers. For long periods of storage, as over winter, cover the cracks between supers with strips of tape.

DIRECTIONS FOR USE (continued)
- Use no more than 5 full-depth supers or 10 half-depth supers in a stack. Taller stacks may not allow for the complete diffusion of the heavy gas, especially during periods of low temperature. In each stack of supers place 3 oz. of crystals (8 tablespoons) on the top bars, preferably, separated from the frames by a piece of paper or cardboard. Place cover tightly in place.
- At intervals of 2 or 3 weeks raise the covers of the stacks and examine the tops supers; if the crystals are no longer present, repeat application at rate as directed above. Para-dichlorobenzene kills adults and immature stages, but not eggs. The continuous presence of crystals within the stack not only repels moths, but also kills any young larvae that hatch after the combs are placed in storage.
- Stored combs that have been treated must be thoroughly aired first, otherwise bees will be killed.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Keep away from heat and flames. Store in a cool dry area under lock and key. Post as a pesticide storage area. Always store pesticides in the original container. Store away from food, pet food, feed, seed, fertilizers, and veterinary supplies. Place liquid formulations on lower shelves and dry formulations above.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture rinsewater is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Completely empty container into application equipment by shaking and tapping sides and bottom to loosen clinging particles. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or by other procedures approved by state and local authorities.
