Dow AgroSciences
Lorsban®
50W in Water Soluble Packets

Acetocide

For use in commercial seed treating operations only as a preplant slurry treatment of bean, corn, cucumber and pumpkin seeds to protect germinating seeds and seedlings from injury by seed corn maggots and seed corn beetles and to protect stored seeds from injury by stored product insects.

The contents of this package are not for individual resale. This product is not for residential use.

Active Ingredient:
chlorpyrifos: O,O-diethyl
O-(3,5,6-trichloro-2 pyridinyl)
phosphorothioate..........................50%

Other Ingredients.....................................50%
Total .....................................................100%

Refer to back panel of bag for Directions for Use including Storage and Disposal and additional Precautionary information.

Notice: Read the entire label. Use only according to label directions. Before using this product, read Warranty Disclaimer, Inherent Risks of Use, and Limitation of Remedies at end of label booklet. If terms are unacceptable, return at once unopened.

In case of emergency endangering health or the environment involving this product, call 1-800-992-5994.

Agricultural Chemical: Do not ship or store with food, feeds, drugs or clothing.

Net Weight: 5 x 1 lb Water Soluble Packets
Precautionary Statements

Hazards to Humans and Domestic Animals

DANGER

Corrosive • Causes Irreversible Eye Damage • May Be Fatal If Swallowed

Do not get in eyes or on clothing. Wear protective eyewear (goggles or face shield). Work to windward to stay out of spray drift or mist. Keep away from food, feedstuffs, and water supplies.

Personal Protective Equipment (PPE)

Materials that are chemical-resistant to this product are barrier laminate and viton.

Mixers and loaders must wear:
- Long-sleeved shirt and long pants
- Chemical-resistant gloves
- Chemical-resistant apron
- Protective eyewear (goggles or face shield)
- Chemical-resistant apron

See Engineering Controls for additional requirements.

All other handlers must wear:
- Coveralls over long-sleeved shirt and long pants
- Chemical-resistant gloves
- Chemical-resistant apron when mixing or loading
- Chemical-resistant footwear plus socks
- Protective eyewear (goggles or face shield)
- Chemical-resistant headgear for overhead exposure

A NIOSH-approved dust/mist filtering respirator with MSHA/NIOSH approval number prefix TC-21C or a NIOSH-approved respirator with any N, R, P, or RP filter

Disposal clothing and other absorbent materials that have been drenched or heavily contaminated with this product’s concentrate. Do not reuse them. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

Engineering Controls

Water-soluble packets, when used correctly, qualify as a closed mixing/loading system under the Worker Protection Standard (WPS) for agricultural pesticides (40 CFR 170.240). Mixers and loaders using water-soluble packets must wear the PPE required above for mixers/loaders, and have immediately available for use in emergency (such as a broken package, spill or equipment breakdown) additional PPE. These PPE include coveralls and chemical-resistant footwear and a NIOSH-approved dust/mist filtering respirator with MSHA/NIOSH approval number prefix TC-21C or a NIOSH-approved respirator with any N, R, P, or RP filter.

User Safety Recommendations

Users should:
- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

First Aid

Organophosphates

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Note to physicians: Cholinesterase is a cholinesterase inhibitor. Treat symptomatically. If exposed, plasma and red blood cell cholinesterase tests may indicate significance of exposure (baseline data are useful). Atropine, only by injection, is the preferable anticholinergic. Oximes, such as 2-PAM/propantheline, may be therapeutic if used early; however, use only in conjunction with atropine. In cases of severe acute poisoning, use anticholinesterase immediately after establishing an open airway and respiration.

Note to physicians: Probable mucosal damage may contaminate the use of gastro lavage.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-992-9994 for emergency medical treatment information.

Environmental Hazards

This pesticide is toxic to fish, aquatic invertebrates, small mammals and birds. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff from treated areas may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all Directions for Use carefully before applying.

Not for on-farm use. Not for use on agricultural establishments in hopper-box, planter-box, slurry-box, or other seed treatment applications at or immediately before planting.

Storage and Disposal

Do not contaminate water, food or feed by storage and disposal. Open dumping is prohibited.

Pesticide Storage: Store in original container in secured dry storage area. Packets may become brittle when stored below 32°F. Handle carefully to avoid breakage. Prevent cross-contamination with other pesticides and fertilizers. Do not store above 100°F for extended periods of time. If container is damaged or spill occurs, use product immediately or dispose of product and damaged container as indicated below. Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinseate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your state pesticide or environmental control agency, or the hazardous waste representative at the nearest EPA regional office for guidance.

Nonrefillable nonrigid containers:

Container Handling: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available.

Refillable rigid containers larger than 5 gal:

Container Handling: Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose.

Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refillers. To clean the container before final disposal, empty the remaining contents from this container into application equipment or a mix tank. Fill the container about 10% full with water and, if possible, spray all sides while adding water. If practical, agitate vigorously or recirculate water with the pump for two minutes. Pour or pump rinseate into application equipment or rinseate collection system. Repeat this rinsing procedure two more times. Then offer for recycling if available, or punch and dispose of in a sanitary landfill, or by incineration, or by other procedures allowed by state and local authorities.
Commercial Seed Treatment

Lorsban® 50W in Water Soluble Packets insecticide is designed as a preplant slurry seed treatment prior to planting to protect the germinating seeds and seedlings. Treated seed may be stored for up to 14 months without loss of insecticidal effectiveness.

Disperse the required amount of Lorsban 50W in sufficient water to give an applied slurry rate of 8 to 12 fl oz per 100 lb of seed to be treated. The slurry rate for sweet corn is 20 to 40 fl oz per 100 lb of seed. Apply using standard slurry equipment by mixing the slurry with the seed using a rotating blender or other suitable mixing equipment that will ensure each seed is uniformly coated. Uniform application to seed is necessary to ensure seed safety and best insect control.

### Target Pests

<table>
<thead>
<tr>
<th>Pests</th>

</tr>
</thead>
<tbody>
<tr>
<td>seed-corn beetles</td>
<td>black-eyed pea, cucumber, field bean, field corn, field pea, garden pea, green bean, kidney bean, lima bean, navy bean, pumpkin, snap bean, string bean, sweet corn, wax bean</td>
<td>2 (1-lb packet per minimum 600 lb seed)</td>
</tr>
</tbody>
</table>

**Specific Use Precautions:**
- Seed should be sound and well cured prior to treatment.
- Exposed treated seeds may be hazardous to birds and other wildlife. Dispose of all excess treated seeds and seed packaging by burial away from bodies of water.

**Specific Use Restrictions:**
- Not for non-agricultural use.
- Not for use on agricultural establishments in hopper-box, planter-box, slurry-box, or other seed treatment equipment at or immediately before planting.
- Do not use treated seed for human consumption, as feed for livestock or poultry, or for feed purposes.
- Do not allow meat or dairy animals to graze or feed from treated hay or hay grown from treated seed.
- Do not plant treated seed with other crops.
- Label treated seed as follows: THIS SEED HAS BEEN TREATED WITH CHLORPYRIFOS. DO NOT USE FOR FOOD, FEED OR OIL. STORE AWAY FROM FOOD AND FOODSTUFF.
- Make only one application of chlorpyrifos.
- The purchaser of this product is responsible for ensuring that all seed treated with this product is adequately covered with a suitable insecticide to prevent its accidental use as food for man or feed for animals. Refer to 21 CFR Part 5.2b. Any dye added to treated seed must be cleaned off for use under 40 CFR Part 180.1001.

**Terms and Conditions of Use**

If the terms of the following Warranty Disclaimers, Inherent Risks of Use, and Limitation of Remedies are not acceptable, return unopened package at once to the seller for a full refund of purchase price paid. Otherwise, use by the buyer or any other use constitutes acceptance of the terms under Warranty Disclaimers, Inherent Risks of Use and Limitation of Remedies.

**Warranty Disclaimers**

To the extent permitted by law, Dow AgroSciences warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. TO THE EXTENT PERMITTED BY LAW, Dow AgroSciences MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

**Inherent Risks of Use**

It is impossible to eliminate all risks associated with use of this product. Crop injury, lack of performance, or other unintended consequences may result because of such factors as use of the product contrary to label instructions (including conditions noted on the label), such as unfavorable temperatures, soil conditions, etc., abnormal conditions (such as excessive rainfall, drought, tornadoes, hurricanes), presence of other materials, the manner of application, or other factors, all of which are beyond the control of Dow AgroSciences or the seller. All such risks shall be assumed by buyer.

**Limitation of Remedies**

To the extent permitted by law, the exclusive remedy for losses or damages resulting from this product (excluding claims based on contract, negligence, strict liability, or other legal theories), shall be limited to, at Dow AgroSciences' election, one of the following:

1. Refund of purchase price paid by buyer or user for product bought, or
2. Replacement of amount of product used

Dow AgroSciences shall not be liable for losses or damages resulting from handling or use of this product unless Dow AgroSciences is promptly notified in writing. In no case shall Dow AgroSciences be liable for consequential or incidental damages or losses.

The terms of the Warranty Disclaimers, Inherent Risks of Use, and the Limitation of Remedies cannot be varied by any written or verbal statements or agreements. No employee or sales agent of Dow AgroSciences or the seller is authorized to vary or exceed the terms of the Warranty Disclaimers or the Limitation of Remedies in any manner.
