Scalex®

Mite & Lice
Spray for Birds

FOR USE ON CAGE AND AVIARY BIRDS TO KILL MITES AND LICE

FIRST AID
If Swallowed: Immediately call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If on Skin or Clothing: Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

PRECAUTIONARY STATEMENTS
Hazards to Humans & Domestic Animals
CAUTION: Harmful if swallowed or absorbed through skin. Avoid breathing spray mist. Avoid contact with skin, eyes or clothing. Thoroughly wash with soap and water after using and before eating, drinking, chewing gum, using tobacco or using the toilet. Users should wear long-sleeved shirt, long pants, socks and shoes. Remove contaminated clothing and wash before reuse.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not spray this product on food or foodstuffs, including chickens.

USE DIRECTLY ON BIRDS TO CONTROL BIRD LICE.
Leave birds in cage. Remove food and water. Lightly spray with 3 or 4 pumps directly on birds from a distance of 12-18 inches. Avoid the bird's eyes and face. Repeat twice a week.

USE ON CAGE AND AVIARY SURFACES TO CONTROL FEATHER MITES.
Remove bird(s)’ food and water cups, etc. Thoroughly spray cage and aviary surfaces from a distance of at least 1 foot, using 5-6 pumps per cage. Thoroughly spray the outside of the cage bottom as feather mites often live there. Do not wet cages or aviary surfaces to the point of runoff or drip.

REPEAT TREATMENT IN AVIARY, CAGES AND ON BIRDS TWICE A WEEK.
Clean bird cages in hot water weekly.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.
Pesticide Storage: Store in original container in a cool, dry (preferably locked) place inaccessible to children and pets and away from heat or sunlight. Protect from freezing.
Pesticide Disposal and Container Handling: Non-refillable container; do not reuse or refill this container. If empty: Offer for recycling, if available, otherwise discard in trash. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

To the extent not prohibited by applicable law, buyer assumes all risk of use, storage or handling of this material not in strict accordance with the directions given herewith.
