This product is a high performance bromine microbicidal which aids in the control of organic slimes of algae, bacteria and fungi when used in accordance with the Directions for Use.

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

**FIRST AID**

* If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

* If on skin or clothing: Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

* If inhaled: Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

* If swallowed: Call a poison control center or doctor immediately for treatment advice.

* Have person sip a glass of water if able to swallow.

* Do not induce vomiting unless told to do so by the poison control center or doctor.

* Do not give anything by mouth to an unconscious person.

**NOT LINE NUMBER**

Have the product container or label with you when calling a poison control center or doctor, or going to the hospital.

**NOTE TO PHYSICIAN**

Probable minor damage may contaminate the use of gastric lavage.

**See side panel for Directions for Use.**

**PACKAGING**

Salted dibromochloropropane

**METALS**

**PRECAUTIONARY STATEMENTS**

**HAZARD TO HUMANS AND DOMESTIC ANIMALS**

**DANGER**

**CORROSIVE**: Causes irreversible eye injury. Causes skin irritation. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Avoid breathing dust. Wear goggles or face shield. Wash thoroughly with soap and water after handling, before eating, drinking, chewing gum, using tobacco or using the toilet. Wash and remove contaminated clothing before reuse.

**ENVIRONMENTAL HAZARD**: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permit authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**PHYSICAL OR CHEMICAL HAZARD** - STRONG OXIDIZING AGENT. Contact with water slowly liberates irritating and hazardous chlorine and bromine containing gases. Decompose at temperature above 464°F with liberation of hazardous gases. When ignited, will burn with the evolution of chlorine and equality toxic gases. Never add water to product. Always add product to large quantities of water. Use clean, dry, utensils. DO NOT add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contact with moisture, organic material, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible fire and explosion. DO NOT add this product to a tablet feeder. Use a pot or shock feeder for granules only if high water flow rates can be assured. Mixtures of this product with 10-50% of water in a confining space may result in destructive over pressurization.

**IN CASE OF FIRE OR SMOKE**: Call the fire department. Do not attempt to extinguish the fire without a self contained breathing apparatus (SCBA). Do not let the fire burn. Flood with copious amounts of water. DO NOT use ABC or other dry chemical extinguishers since there is the potential for a violent reaction.

**IN CASE OF CONTAMINATION OR DECOMPOSITION**: DO NOT resell container. Follow disposal instructions on container.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**FOR CONTROL OF BACTERIA, FUNGI AND ALGAE IN RECYCLATING WATER SYSTEMS**

**FOR RECYCLATING WATER SYSTEMS**: This product is intended for use in the following aquatic systems: Air Wash Water Systems, Commercial/Industrial Water Cooling Systems, Evaporative Condenser Water Systems, Heat Exchange Water Systems, Industrial Scrubbing Systems, Industrial Auxiliary Water Systems, Industrial Process Water, Industrial Water Disposal Systems, Poultry/ Farm/Canery Cooling Water Systems. This product may be added to the system by direct placement into the water at a point where the product will be uniformly mixed with water. The frequency of feeding and duration of the treatment will depend on the severity of the contamination. Badly fouled systems must be cleaned before treatment begins.

**INTERMITTENT OR SLUG METHOD**

**Initial Dose**: When the system is noticeably fouled, add this product at the rate of 0.15 to 0.75 pounds per 1000 gallons (3.6 to 18 grams per 1000 liters) in the system to achieve 0.5-10 mg/L total available halogen as chlorine, as measured by a suitable test kit. Repeat dosage until residual is achieved.

**Subsequent Dose**: When microbial control is evident, add this product at the rate of 0.03 to 0.15 pounds per 1000 gallons (0.6 to 18 grams per 1000 liters) in the system to achieve 0.1-0.5 mg/L total available halogen as chlorine, as measured by a suitable test kit. Repeat periodically as needed to maintain control.

**CONTINUOUS FEED METHOD**

**Initial Dose**: When the system is noticeably fouled, add this product at the rate of 0.15 to 0.75 pounds per 1000 gallons (3.6 to 18 grams per 1000 liters) in the system to achieve 0.5-10 mg/L total available halogen as chlorine, as measured by a suitable test kit. Repeat dosage until residual is achieved.

**Subsequent Dose**: When microbial control is evident, add this product at the rate of 0.03 to 0.15 pounds per 1000 gallons (0.6 to 18 grams per 1000 liters) in the system to maintain 0.1-0.5 mg/L total available halogen as chlorine, as measured by a suitable test kit.
