DANGER: KEEP OUT OF REACH OF CHILDREN.

CORROSIVE. Causes irreversible eye damage and skin burns. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear eye protection (face shield or goggles), protective clothing, and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove contaminated clothing and wash before reuse.

STORAGE AND DISPOSAL

Store in original container in an area inaccessible to children or individuals unfamiliar with the use of the product. Do not use with soap or synthetic or other disinfectants. Do not reuse empty container. Discard in trash.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is not to be used as a terminal/steral/low-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection. For disinfecting, a precleaning step is required.

PREPARATION OF DISINFECTANT USE SOLUTION: Mix one tablespoon of MAR-V-CIDE in one quart of water, or make stock solution by mixing two ounces (1/4 cup) MAR-V-CIDE in one gallon of water.

DISINFECTION DIRECTIONS: Apply use solution to hard, non-porous surfaces such as floors, walls, cabinets, sinks, countertops, tables, chairs, and telephones, thoroughly wetting the surfaces with a cloth, mop, or sponge. Treated surfaces must remain wet for 10 minutes, then allow to air dry. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution after each use.

BARBER/BEAUTY SALON INSTRUMENTS AND TOOLS: Immersion pre-cleaned barber/beauty salon instruments and tools (such as combs, brushes, razors, scissors, blades, and manicure instruments) in a use solution of 2 oz. per gallon of water (refer to preparation of use solution) for 10 minutes. For heavily soiled instruments and tools, a preliminary cleaning is required. Rinse thoroughly and dry before use. A fresh solution must be prepared daily or more often if solution becomes diluted or soiled.

DISINFECTION OF HARD, NON-POROUS SURFACES IN PEDICURE FOOT SPA UNITS: After using whirlpool foot spa, drain the water and thoroughly clean all hard, non-porous surfaces with soap or detergent. Refill the pedicure foot spa with fresh water to just cover the intake valve. Add 2 ounces of this product for each gallon of water at this point. Briefly start the pump to circulate the solution. Turn off the pump. Wash the unit sides, seat of chair, and any/all related equipment with sponge, brush, or swab. Treated surfaces must remain wet for 10 minutes. After the unit has been thoroughly disinfected, drain the solution from the pedicure foot spa and rinse any/all cleaned surfaces with fresh water.

FUNGICIDAL DIRECTIONS: This product is an effective fungicide against Trichophyton mentagrophytes, agent that causes Athlete's foot fungus, in areas such as locker rooms, dressing rooms, shower, and bath areas. Apply use solution to hard, non-porous surfaces such as floors, walls, cabinets, sinks, counters, thoroughly wetting the surfaces with a cloth, mop, or sponge. Treated surfaces must remain wet for 10 minutes, then allow to air dry. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution after each use.

PERFORMANCE: When tested with full immersion for 10 minutes in solution created as above, MAR-V-CIDE is effective as a disinfectant, germicide, bactericide, fungicide, and virucide* against:

Salmonella choleraesuis
Staphylococcus aureus
Pseudomonas aeruginosa
