advantage® 10
Topical Solution

Once-a-Month Topical Flea and Lice Treatment for Dogs and Puppies 7 Weeks and Older and 10 lbs. and Under

- Kills fleas on dogs within 12 hours
- Kills fleas before they lay eggs
- Convenient, easy to apply
- Active ingredient: Pyriproxyfen

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS:
- Causes eye irritation. Harmful if swallowed. Do not get in eyes or on clothing. Avoid contact with skin. Wash hands thoroughly with soap and warm water after handling. Keep out of reach of children. Do not contaminate feed or food.

HAZARDS TO DOMESTIC ANIMALS:
- For external use only. Do not use on puppies under seven weeks of age. Do not use on dogs with a history of sensitivity to pyrethrin, or on pregnant or nursing animals. Individual sensitivities, while rare, may occur after using this pesticide product. If signs persist, or become more severe, consult a veterinarian immediately. If your animal is on a medication, consult your veterinarian before using this product or any other product.

READ THE ENTIRE LABEL BEFORE EACH USE
For the Prevention and Treatment of Flea and Lice Infestations on Dogs

- Kills fleas on dogs within 12 hours
- Kills fleas before they lay eggs

If swallowed:
- Call poison control center or doctor immediately for treatment advice. Have person take a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing:
- Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

To Physician:
- Treat the patient symptomatically.

DIRECTIONS FOR USE
- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
- How to Apply:
  1. Use only on dogs. Do not use on other animals.
  2. Remove one applicator tube from the package.
  4. Twist the cap around and place other end of cap back on tube.
  5. Twist to break seal, then remove cap from tube.

If more than one month's supply of product is being used:
- The dog should be standing for easy application. Part the hair on the dog's back, between the shoulder blades, until the skin is visible. Place the tip of the tube on the skin and squeeze the tube to expel the entire contents directly on the skin.
- Do not get this product in your pet's eyes or mouth.

In case of severe flea infestation, retreatment may be necessary earlier than four weeks. Do not retreat more often than once every seven days. After flea control is attained, return to a monthly retreatment schedule.

WARNING
See below for First Aid and Precautionary Statements.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS: Causes eye irritation. Harmful if swallowed. Do not get in eyes or on clothing. Avoid contact with skin. Wash hands thoroughly with soap and warm water after handling. Keep out of reach of children. Do not contaminate feed or food.

HAZARDS TO DOMESTIC ANIMALS
For external use only. Do not use on puppies under seven weeks of age. As with any product, consult your veterinarian before using this product on debilitated, aged, pregnant or nursing animals. Individual sensitivities, while rare, may occur after using any pesticide product for pets. If signs persist, or become more severe, consult your veterinarian immediately. If your animal is on medication, consult your veterinarian before using this or any other product. For consumer questions call 1-800-255-6826. For medical emergencies call 1-800-622-9874.

FIRST AID
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If any symptoms or signs of hazard occur, consult a physician immediately.

DIRECTIONS FOR USE
1. Is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

HOW TO APPLY
1. Use only on dogs. Do not use on other animals.
2. Remove one applicator tube from the package.
4. Turn the cap around and place other end of cap on tube.
5. Twist cap to break seal, then remove cap from tube.
6. The dog should be standing for easy application. Part the hair on the dog's back, between the shoulder blades, until the skin is visible. Place the tip of the tube on the skin and squeeze the tube to expel the entire contents directly on the skin.
Do not get this product in your pet's eyes or mouth.
7. Discard empty tube as described in Storage and Disposal.
8. In case of severe flea infestation, retreatment may be necessary earlier than four weeks. Do not retreat more often than once every seven days. After flea control is attained, return to a monthly retreatment schedule.

GENERAL INFORMATION
The successive feeding activity of fleas on pets may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of dogs with Advantage® kills fleas and may reduce the incidence of this condition. Advantage® kills fleas on dogs within 12 hours. Reinfesting fleas are killed within 1 hour with protection against further flea infestation lasting for up to four (4) weeks. Pre-existing parasites in the environment may continue to emerge for six (6) weeks or longer depending upon the climatic conditions. Larval flea stages in the pet's surroundings are killed following contact with an Advantage® treated pet. Advantage® is waterproof and remains effective following a shampoo treatment, swimming or after exposure to rain or sunlight. Monthly treatments are required for optimal control and prevention of fleas.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal. Store in a cool, dry place. Disposal: Nonrefillable container. If empty: Do not reuse or refill container. Place in trash or offer for recycling if available. If partially filled: Call your local solid waste agency or 1-800-622-9874 for disposal instructions. Never place unused product down any indoor or outdoor drain.
