Disinfectant & Deodorant

- Inhibits Mold and Mildew Growth for 7 Days on Hard Surfaces and for 28 Days on Fabric!
- Tuberculocidal
- Staphylocidal
- Bactericidal
- Fungicidal
- Pseudomonocidal
- Virucidal
- Kills Herpes simplex virus type 1 and type 2 and HIV-1 (AIDS virus) on environmental hard surfaces
- Effective Against Antibiotic Resistant Stains VRE, MRSA, CA-MRSA
- Kills Pandemic 2009 H1N1 influenza A virus (formally called swine flu)

ACTIVE INGREDIENTS:
- ortho-phenylphenol ........................................0.177%
- para-tertiary-amylyphenol ..................................0.045%
- ethyl alcohol ..................................................61.348%
OTHER INGREDIENTS: ........................................38.323%
TOTAL: ..........................................................100.000%
FORMULATION CONTAINS SODIUM NITRITE AND 3% ALCOHOL (METHYL ALCOHOL OR ISOPROPYL ALCOHOL)

USES: This Hospital Disinfectant and Deodorant acts within 10 minutes to disinfect germ laden surfaces such as Restroom Seats, Toilets, Urinals, Laundry Chutes, Door Knobs, Metal Beds and Springs, Wheel Chairs, Linen Carts, Non-Porous Hoppers, Drying Carts, Clean-up Carts, Light Switches, Office Machinery, and other hard, nonporous surfaces after the surface has been properly cleaned. Will reduce the hazard of cross contamination from treated surface by bacteria from environmental surfaces. Molecular aerosol deodorant attacks malodor at the source. Does not cause anaemia. Suppresses and eliminates odors by chemically neutralizing odor producing materials.

Effective on odors from any source when used as a deodorant in hospitals, nursing homes, and ambulances. Also effective on odors in kitchens, bathrooms, industrial plant processes, food processing and packaging plants and food stores.

This product will control the following pathogenic organisms when used as a surface disinfectant: Mycobacterium bovis (BCG), Mycobacterium smegmatis (ATCC 70044), Pseudomonas aeruginosa (ATCC 15442), Salmonella enterica (ATCC 10757), Salmonella schottmuelleri (paragonyonin B) Salmonella typhosa, Shigella paratyphi, Staphylococcus aureus (ATCC 6538), Streptococcus pyogenes, Trichophyton mentagrophytes (ATCC 9353), Methicillin Resistant Staphylococcus aureus (MRSA) (ATCC 35931), Vancomycin Resistant Enterococcus faecalis (VRE) (ATCC 51215), Community Associated Methicillin Resistant Staphylococcus aureus (CA-MRSA) (NARRS NRS123) (Genotype USA400) ‘Virulent’ A virus (ATCC VR-540/Strain Hong Kong), and Influenza A Virus (ATCC VR-823/Strain B/Hong Kong/57/2) Herpes simplex virus type 1 (Strain S-148) and type 2 (ATCC VR-734) and HIV-1 (AIDS virus) (strains III b) on environmental hard surfaces. Respiratory illnesses attributable to Pandemic 2009 H1N1 flu caused by influenza A virus. This product is a broad-spectrum hard surface disinfectant that has been shown to be effective against influenza A virus tested and listed on the label and is expected to inactivate all influenza A viruses including Pandemic 2009 H1N1 flu caused by influenza A virus. Inhibits growth of mild (mold fungi) such as Aspergillus niger (ATCC 6275) and Penicillium variable (NRRL 3765) on hard surfaces for 7 days and for 28 days on fabric.

Acts instantly and remains effective for long periods on unpleasant odors from faecal matter, urine, burns, smoke, mildew and mold decay, garlic, onions, food putrefaction, stale air, perspiration, tobacco, sick rooms, musty closets, etc.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either in or into contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or other normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

DIRECTIONS: SHAKE WELL BEFORE USING FOR DISINFECTING AND DEODORIZING: Clean surface thoroughly with an effective detergent followed by a potable water rinse in order to remove heavy soil or gross filth.

MADE IN U.S.A. BY: Amrep Inc.
