DIRECTIONS FOR USE

For use as a surface spray:

Do not apply as a broadcast treatment to indoor surfaces at residential sites such as nurseries, day-care centers, schools, hospitals and nursing homes. Do not apply this product in a way that will contaminate children, pets, or persons either directly or through drift. Remove pets, birds, and cover fish aquariums before use. Do not allow adults, children, or pets, in or under treated area. Exit area immediately and remain outside the treated area until aerosols, vapors, and/or mists have dispersed. Do not allow pets, children, or pets to enter until vapors, remains and aerosols have dispersed and the treated area has been thoroughly ventilated.

FLEAS AND TICKS ON DOGS

Start spraying at the animal's head, avoiding the eyes and mouth as you spray. Make sure the animal's entire body is covered including the legs, abdomen, and tail. While spraying, direct the spray toward the skin. Use a gentle rinse with water to help remove the spray residue. Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift. Remove pets, birds, and cover fish aquariums before use. Do not allow in or under treated area immediately. After 6–12 hours, the treated area will be safe for children, pets, and birds.

FOR DOGS

For use as a space spray:

Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift. Remove pets, birds, and cover fish aquariums before use. Do not allow adults, children, or pets, to enter until treated area has been thoroughly ventilated.

Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift. Remove pets, birds, and cover fish aquariums before use. Do not allow adults, children, or pets, to enter until treated area has been thoroughly ventilated.

PET AREAS

Not to be used for broadcast treatment. To control fleas and brown dog ticks on premises. As a spray treatment, directly spray infested areas, pets, bedding, narrow cracks, behind corners, along and between baseboards, moldings, window and door frames, and local areas of floor and floor covering. Fresh bedding should be placed in animal's quarters following treatment. Concurrent treatment of animals is recommended. Regularly every 30 days.

TO KILL AND REPEL FLYING INSECTS IN ANIMAL QUARTERS

Spray in areas where insects congregate. Direct spray on insects to prevent rapid knockdown and killing.

STORAGE and DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE: Store in a cool, dry, well-ventilated area that is inaccessible to children and pets and away from heat, sparks, or open flames. Store pesticides away from food, pet food, seed, fertilizers, and veterinary supplies. PESTICIDE DISPOSAL and CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. If empty, place in trash or offer for recycling, if available. If partially filled, call your local solid waste agency for disposal instructions. Never place unused product down an indoor or outdoor drain.
