DIRECTIONS FOR USE:
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

PRODUCT DESCRIPTION: This pac is a disinfectant that is part of an advanced pool care system that uses the POOL FROG® Mineral Reservoir with low levels of chlorine to destroy bacteria continuously for weeks under normal conditions in a stabilized pool. The conveniently disposable pac lets you control the rate of chlorine delivery to meet changing conditions in your pool by simply adjusting the control dial on the POOL FROG® Cycler. You never have to touch the chlorinating tablets.

USE DIRECTIONS:
1. Adjust pH level to 7.2 – 7.8.
2. Bring Free Available Chlorine (FAC) residual to 1.0 ppm using a chlorine shock. Follow Manufacturer’s Label Directions.
3. Stabilize the pool with cyanuric acid stabilizer. Follow Manufacturer’s Label Directions.
4. To install pac: Take POOL FROG® Cycler cap off. Remove pac colored caps. Hold pac so the open end faces down. Insert into POOL FROG® Mineral Reservoir. The end of the pac must align with the key located inside the POOL FROG® Cycler at the bottom. DO NOT FORCE. Replace cycler cap and set the control dial per the size and pump run time of your pool according to the chart in the manual included with the POOL FROG® Mineral Reservoir. Monitor chlorine level daily for the first week to determine correct dial setting. Turn the control dial to the next higher setting to increase the FAC and turn it to the next lower setting to decrease the FAC. Check the FAC residual with FROG Test Strips and increase/decrease one setting per day until you achieve at least 0.5 ppm. Do not enter the pool until the chlorine residual is at least 0.5 ppm.
5. Once you have determined the proper setting for your pool, you do not have to readjust the setting under normal conditions. If conditions change (i.e. weather, rain, pool use, bathers, etc.) the control dial can be easily adjusted to increase or decrease the chlorine feed.
6. Super chlorinate if needed. Do not add shock treatment to the skimmer. Turn control dial to Minimum or Setting #0 before super chlorinating. Once desired FAC has been obtained, return the control dial to the normal operating setting.
7. Periodically check the pac and replace with a new one when empty. Do not attempt to open or refill this pac. DO NOT REUSE.

NOTE: Some setting may occur during shipment. DO NOT REMOVE LABEL #20-43-1437.

NOW FOR USE WITH
POOL FROG® Series 5100, 5200, 5400, 5600 and 6100

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Follow directions for use carefully. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS: Corrosive: Strong oxidizing agent. Non-refillable container. Do not attempt to refill empty pac. Place only into water or installed equipment made for this product. Contamination with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire and explosion. Avoid any contact with flaming or burning material such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g., calcium hypochlorite). Such use may cause fire or explosion.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE AND DISPOSAL: Do not contaminate food or feed with this product.

Product Storage: Store pac in original container in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container and flood area with large amounts of water to dissolve all material before discarding this pac.

Pesticide Disposal: Product or rinsates that cannot be used must be diluted with water before disposal in a sanitary sewer.

Container Handling: Non-refillable container. Do not reuse or refill this pac. Shake the pac over the pool and away from your face to ensure it is empty before offering for recycling if available or dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

IMPORTANT: The warranty will be void if this pac is not used with the appropriate POOL FROG® Cycler. Fire or explosion may result if this pac is used with an incorrect chemical feeder. In case of a medical emergency call 1-800-424-9300. EPA Est. No.: 82385-MI-001 (K); 58401-LR-001 (S)

Beginning of batch code indicates Est. No.

POOL FROG® Bac Pacs
Used with the POOL FROG® Mineral System

Minerals Make a Difference You Can See and Feel.
Replace your POOL FROG® Mineral Reservoir every season!

Use FROG BAM®
For a 90-Day Algae-Protection Guarantee!

Adopt a FROG® for Worry-Free Water!
• Less work with no daily dosing.
• Reduces chlorine use up to 50%.*
• Adopt an easier, more fun pool environment.

+Replace your POOL FROG® Mineral Reservoir every six months or once a season, whichever is shorter.

*Compared to the minimum EPA recommended chlorine level of 1.0 ppm for a stabilized swimming pool.
