Ex-it Emulsifiable Concentrate

- Solvent Based
- Water Emulsifiable
- Top Kill
- Soil Sterilant
- Concentrated
- Non-Selective

ACTIVE INGREDIENTS:
- 3,3-bis[(1,1-dimethylethyl)-4-methylthio]benzyl)2-propanol
- 2.36%

INERT INGREDIENTS: .......................................................... 97.70%

TOTAL: ............................................................................. 100.00%

CONTAINS PETROLEUM DISTILLATES.
Contains 0.17% of active ingredient per gallon of un-diluted product.

KEEP OUT OF REACH OF CHILDREN

WARNING See side panel for additional precautionary statements

DESCRIPTION OF PRODUCT: This Liquid weed killer is composed of 5-bromo-3-
sec-butyl-4-methylthio)benzil (Bromacil) in a phystostegia oil. The carrier combines
the properties of low volatility with rapid penetration and translocation in the
plant. The insolubility of the herbicide in water assures full effect regardless of
rainfall after application or stage of growth at the time of application.
It produces rapid top kill of all succulent vegetation. Translocation and root
absorption of component herbicides produce extensive root kill of weeds and
provide long term residual control.

GENERAL PRECAUTIONS AND RESTRICTIONS: ENTER RESTRICTION:
Do not enter or allow others to enter the treated area until sprays have dried.
Do not apply with product in a way that will contact water or other
persons, either directly or through drift. Only protected handlers may be in the area
during applications. Not to be used in any recreational areas or in or around
homes. Do not apply more than 12 lbs. active ingredient per acre per year.

APPETITE INSTRUCTIONS: This product can be used to control weeds for an extended
period of time on non-crop areas such as loading ramps, fence rows, railroad side-ways, storage yards, parking lots, around
buildings and industrial plant sites.
Do not apply this product to areas where the roots of desirable plants such as
trees or ornamentals will come into contact with it, as injury might result.
Do not use on lawn, driveways, walks or similar areas adjacent to
sustainable plants, as this product may injure cotton, beans, peas, grapes,
ornamentals, etc. Do not contaminate domestic water or irrigation water
and keep from contact with fertilizer mixtures, tanglefoot and weed
sprays from this product may injure susceptible plants in the vicinity.

APPLICATION INSTRUCTIONS: Any application equipment such as:
Power sprayers, Compressed air sprayers, Knapsack sprayers or Sprinkler cans
is suitable for applying this product. Equipment should be calibrated so as to
assure application of the recommended amount of material.

For control annual weeds and grasses such as Fatfem, Ryegrass, Wildrye,
Crestgrass, Chestgrass, Brome, Sedge, Ryegrass, Lambquisk and Turkey
mulein, dilute one gallon of this product to 9 gallons of water and apply 5
gallons of the diluted spray, per 1,000 square feet.
For hard to kill perennial weeds and grasses such as: Johnson Grass, Salt grass,
Bouncing Bets, Blackstem, Hoload, Smooth brooms, Canada bluegrass,
Purpletop, Quaasslass, Brome, Acras, Cuscuta, Dogfennel, Gardenfennel,
Pean and Wild carrot, dilute one gallon of this product to 9 gallons of
water and apply 10 gallons of the diluted spray per 1,000 square feet.
This concentrate may be applied at any time of the year except when the
ground is frozen. Best results are obtained after predominant weeds have
emerged and developed to a point where they present a problem.

WARRANTY STATEMENT: Buyer assumes all risks of use, storage or han-
dling of this material not in strict accordance with directions given here.
