This Algicide is economical, efficient and stable. In use dilu-
tion, this product is non-staining and non-corrosive to pool
surfaces and equipment. This Algicide is formulated to com-
plement swimming pool water being treated with normal
chlorine systems. It is especially effective against growth of
algae and, being non-volatile, aids in maintaining pool water
clarity and sparkle. The residual effectiveness of this algicide
tends to stabilize the total chemical treatment system.
This Algicide is compatible with most chemicals normally used
in swimming pool maintenance; however, in its concentrated
form, this chemical must not come in contact with high con-
centrations of chlorine. Do not mix Algicide and chlo-
rine together before adding to the pool. These chemi-
cals should be handled separately.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner
inconsistent with its labeling.
1. For an initial application or when pool water is changed
use one quart per 25,000 gallons of water.
2. For maintenance, use one ounce per week per 5,000 gal-
lons of water. After each rain of consequence, add one
ounce per 5,000 gallons of water in addition to the above
amounts.
3. The appropriate amount of this Algicide must be added by
pouring directly into the pool. More rapid distribution will be
achieved by pouring a little of the specified amount into
several areas of the pool. Recirculation or swimming activ-
ity will assure rapid dispersion.

TO DETERMINE POOL CAPACITY:
Rectangular Pools-
length times width times average depth
(in feet) times 7.5 equals gallons.
Round and Oval Pools-
Average diameter times average
diameter times average depth (in feet) times 5.9 equals gal-
lons.

STORAGE AND DISPOSAL:
Store in original
container in areas inaccessible to children. Nonrefillable con-
tainer. Wrap container and
put in trash or offer for recycling if available.
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
DANGER: Corrosive. Causes irreversible eye damage and
skin burns. May be fatal if swallowed. Do not get in eyes, on
skin or on clothing. Wear safety glasses, rubber gloves and
protective clothing. Wash thoroughly with soap and water
after handling and before eating, drinking or using tobacco.
Remove contaminated clothing and wash clothing before
reuse.

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with
water for 15-20 minutes. Remove contact lenses, if present,
after the first 5 minutes, then continue rinsing. IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with
plenty of water for 15-20 minutes. IF SWALLOWED: Call a
poison control center or doctor immediately for treat-
ment advice. Have a person sip a glass of water if able to swallow.
Do not induce vomiting unless told by a poison control center
or doctor. Call a poison control center or doctor for treatment
advice. Have the product container or label with you when
calling a Poison Control Center or doctor or going for treat-
ment.

NOTE TO PHYSICIAN:
Probable 
mucosal damage may contraindicate
the use of gastric lavage. Measures
against circulatory shock, respiratory
depression and convulsion may be
needed.

ENVIRONMENTAL HAZARDS:
This pesticide is toxic to fish and aquatic invertebrates.
