Concentrated, Slow-Dissolving Sanitizer for Routine Use in Automatic Feeders, Floaters or Plastic Skimmers.

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**
See back panel for First Aid and additional precautionary statements

**ACTIVE INGREDIENT:**
Trichloro-s-triazinetrione ........................................... 99.0%

**OTHER INGREDIENTS:** ........................................... 1.0%

**TOTAL INGREDIENTS:** .................................... 100.0%

(Available Chlorine: 90%)

**Net Weight:** 25 LBS. (11.3 KG)

Diecut for 2, 2 1/2, 3 1/2 Gallon Plastic pail
WHY TO USE THIS PRODUCT:

This slow dissolving product releases sufficient chlorine to reduce the growth of harmful algae and bacteria in your pool. Unlike unstabilized pool sanitizers such as Calcium Hypochlorite or liquid chlorinating product from sunlight, this product contains both chlorine and a stabilizer which reduces chlorine loss from sunlight.

STORAGE AND DISPOSAL:

Keep the product dry in original tightly closed container. Do not store in areas where temperatures exceed 100°F or where temperatures may fall below freezing. Do not contaminate waterways or surface water sources from spills or improper disposal. Do not store near food or feed. Wash hands after handling. Do not apply this product in any manner in violation of Federal Law.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

Precautionary Statements:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: Danger: Corrosive: Causes irreversible eye damage and skin burns. May be fatal if swallowed, inhaled, or if absorbed through skin. May be fatal if swallowed. Exposure to strong irritants may cause respiratory distress. Do not get in eyes, on skin or on clothing. Wear protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Store out of the reach of children and wash hands before eating, drinking or using tobacco.

FIRST AID: IF IN EYES: Hold eye open and rinse thoroughly with large volumes of water. Call a poison control center or doctor, or have the product container or label with you when calling a poison control center or doctor, or going for treatment. IN CASE OF MEDICAL EMERGENCY, CALL 1-877-800-5553.

OTHER REPORTABLE MATERIALS: For additional information, contact the proper addition of sanitizer product to chlorinators. Use clean dry utensils. Do not mix with other chemicals containing nitrates or nitrites. Such use may cause a violent reaction leading to fire or explosion. Contamination with minerals, organic matter or other chemicals will start chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not rewash container. If possible, isolate container in an open area or well ventilated area. Flood area with large volumes of water.

Gloves:

Do not wear latex gloves. Use gloves made from nitrile, neoprene or butyl rubber. These gloves are not completely effective in preventing skin irritation and should be used in conjunction with other protective equipment such as goggles or safety glasses, long sleeve shirt and pants.
