FIRST AID
If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin: Remove gross filth and heavy soil loads. Spray MetriGuard directly onto surface. Allow to remain visibly wet for 3 minutes at room temperature (68 °F/20 °C). Remove contaminated clothing and wash clothing before reuse. See other panel for additional precautionary statements.

If swallowed: Give at least 1 oz. (290 mL) of water. Do not induce vomiting. Call a poison control center or doctor for treatment advice.

If inhaled: Remove victim to fresh air. If not breathing, give artificial respiration. If breathing is not restored, call a poison control center or doctor for treatment advice.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in a cool place.

Pesticide Disposal: When disposing of this product, call Metrex Customer Service at 1-800-841-1428, Monday through Friday, between 6 a.m. and 4 p.m. Pacific Time.

Mode of Precaution: Precautionary Statements: Hazards to Humans and Domestic Animals. CAUTION Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash clothing before reuse. See other panel for additional precautionary statements.

Precautionary Statements:

Physical or Chemical Hazards: Combustible. Do not use or store near heat or open flame.

MetriGuard®
surface disinfectant
decombinant cleaner

Bactericidal Virucidal* Fungicidal Tuberculocidal**

ACTIVE INGREDIENTS:
Disobutylphenoxethoxyethyl dimethyl benzyl ammonium chloride.................................. 0.28%
Isopropanol................................................. 17.00%
TOTAL .................................................. 100.00%

KEEP OUT OF REACH OF CHILDREN

CAUTION EFFECTIVE AGAINST:
- Mycobacterium tuberculosis var. bovis (BCG)**
- Staphylococcus aureus
- Pseudomonas aeruginosa
- Salmonella enterica
- Trichophyton mentagrophytes
- Methicillin Resistant Staphylococcus aureus (MRSA) • Vancomycin Resistant Enterococcus fecalis (VRE)
- Hepatitis B Virus (HBV)* • Herpes Simplex Virus Types 1 and 2 * • Human Immunodeficiency Virus (HIV-1)*

DESCRIPTION MetriGuard is a multi-purpose disinfectant/decontaminant cleaner for use on hard, non-porous inanimate surfaces. It is useful in hospital operating rooms, emergency departments, isolation areas, animal care facilities, schools, bathrooms and other critical care areas where control of cross contamination between treated surfaces is important.

MetriGuard will effectively clean and disinfect, when used as directed, such items as interior and exterior toilet surfaces, bathtubs, shower stalls, cabinets, garbage cans, computers, keyboards, carts, baskets, shopping carts, weight-lifting surfaces and telephones which are made of plastic (i.e., polycarbonate, polypropylene, polyvinylchloride, polystyrene), and use sites listed on this label consisting of non-porous vinyl, stainless steel, painted surfaces, Formica® and glass.

DIRECTIONS FOR USE It is a violation of FD&C law to use this product in a manner inconsistent with its labeling. FOR PRECLEANING NON-INSTRUMENT SURFACES PRIOR TO DISINFECTION: Remove gross filth and heavy soil loads. Spray MetriGuard directly onto surface. Allow to remain visibly wet for 30 seconds. Wipe surface using a towel. FOR PRECLEANING INSTRUMENTS PRIOR TO DISINFECTION: Remove gross filth and heavy soil loads. For use as a precleaning decontamination spray: Place instruments in a container. Spray MetriGuard so as to thoroughly drench all instrument surfaces and allow to remain visibly wet for 2 minutes. Remove and rinse instruments. Follow with appropriate cleaning and disinfection process. FOR USE AS A VIRUCIDE ON NON-INSTRUMENT SURFACES, INCLUDING HBV-1 AND HBV APPLICATIONS: Spray MetriGuard directly onto precleaned surface, thoroughly wetting area to be treated. Allow surface to remain visibly wet for 2 minutes at room temperature (68 °F/20 °C). FOR USE AS A DISINFECTANT ON NON-STERILE SURFACES: Spray MetriGuard directly onto precleaned surface, thoroughly wetting area to be disinfected. Allow surface to remain visibly wet for 3 minutes at room temperature (68 °F/20 °C) for Tuberculocidal** activity and effectiveness against Staphylococcus aureus, Pseuodomona aeruginosa, Trichophyton mentagrophytes and Salmonella enterica. Wipe using a towel or allow to air dry. FOR USE AS A DISINFECTANT ON PRECLEANED NON-CRITICAL MEDICAL DEVICES, INSTRUMENTS AND IMPLANTS: Instruments must be thoroughly cleaned to remove excess organic debris, rinsed and dried. Thoroughly clean and rinse lumens of hollow instruments. Using either a tray or an ultrasonic unit, immerse instruments in MetriGuard for 2 minutes at room temperature (68 °F/20 °C) and effectively or infects Staphylococcus aureus, Pseudomonas aeruginosa, Trichophyton mentagrophytes and Salmonella enterica. Remove and rinse instruments. Wipe dry prior to use. Discard solution after each use.

Non-critical medical devices are items that come in contact only with intact skin.

Note: Critical and semi-critical devices must be followed by appropriate terminal sterilization/high-level disinfection process.
