PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Caution: Harmful if swallowed or absorbed through skin. Do not remain in treated area and ventilate properly after treatment is completed. Avoid breathing dust or mist. Avoid contact with skin, eyes, or clothing.

General: Spray is a botanical insecticide effective against insects generally associated with food products. It is effective against many species of household pests and is acceptable for use in homes, stables, barns, and other structures where children or pets may be exposed.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

For best results product should be used when temperature is above 60°F. Temperature is below 60°F, store at room temperature until temperature of above 60°F is reached.

DAIRY FARM USE: Milking Parlors and Milk Rooms - Close all windows and doors. Direct fog upward and in all directions at a rate of 1 - 3 sec/1,000 ft 3. Keep room closed for 15 min after treatment. Open and ventilate before reoccupying. Cover milking units and milk to prevent contamination from spray and dust falling insects.

ANIMAL USE (Do not spray sick animals): From approximately 2 ft distance, thoroughly spray entire animal as it is being released to pasture. Do not spray directly toward animal's eyes. Spot treat withers, shoulders and back where saliva accumulates from head tossing.

STANCHION BARN USE: Walk behind animals and direct spray over backs allowing 1 sec/animal. For most effective results, apply each morning.

BEEF CATTLE OPERATIONS: In barns, close all windows and doors. Spray at a rate of 1 - 2 sec/1,000 ft 3. Keep area closed for 15 min following application. Ventilate area after treatment is complete. If area cannot be closed, double the dosage. Repeat application daily or as necessary.

HORSE BARS AND STABLES: Close all windows and doors. Spray at a rate of 1 - 2 sec/1,000 ft 3. Keep area closed for 15 min following application. Ventilate area after treatment is complete. If area cannot be closed, double the dosage. For animal application, lightly mist over the backs of horses and poniies from a distance of at least 2 ft. Repeat application daily or as necessary.

POULTRY OPERATIONS: Use only in empty poultry houses (where雏 are not present). Close all windows and doors. Spray at the rate of 1 - 2 sec/1,000 ft 3. Keep area closed for 15 min following application. Ventilate area after treatment is complete. If area cannot be closed, double the dosage. Treat daily as necessary.

HOG OPERATIONS: In hog houses, close all windows and doors. Spray at the rate of 1 - 2 sec/1,000 ft 3. Keep area closed for 15 min following application. Ventilate area after treatment is complete. If area cannot be closed, double the dosage. For animal application, direct spray over area.
