NET CONTENTS 2 Ozs.
3. HERE ARE THE RESULTS YOU SHOULD EXPECT!
When used according to directions, this product will control Fire Blight and Bacterial Wilt, Stem Rot, Leaf Spot, and Crown Gall
on Fruit Trees, Flowers and Shrubs.

STORAGE AND DISPOSAL
STORAGE: Store in original container and place in a locked storage area.
DISPOSAL: Do not reuse container. Wrap and put in trash.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
May cause allergic skin reactions. Do not breathe dust or spray mist. Wear a dust mask and rubber gloves. Wash thoroughly after handling. This material is not to be used for medical, veterinary, or human purposes. DO NOT APPLY this product in a
way that will contact unprotected workers, either directly or through drift. Only protected handlers may be in the area during
application. DO NOT ENTER or allow entry into treated areas until (sprays have dried/dusts have settled/vapors have dispersed,
as applicable) to perform hand labor tasks.

STATEMENT OF PRACTICAL TREATMENT
If the pesticide comes in contact with skin, wash off with soap and water. Always wash hands, face, and arms with soap and
water before smoking, eating, drinking, or toileting. Before removing gloves, wash them with soap and water.

ENVIRONMENTAL HAZARDS
This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.
* Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith.
DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

1. WHAT IS THIS PACKAGE FOR?

Use this product to control Fire Blight and Bacterial Wilt, Stem Rot, Leaf Spot, and Crown Gall on Fruit Trees, Flowers and Shrubs.

2. HOW DO YOU USE IT?

FRUIT, APPLES AND PEARs (Areas Other Than West Coast): To control Fire Blight in Home Plantings, apply 1 tablespoon in 2% gallons of water (equivalent to 100 ppm or 4 ozs. per 50 gallons of water) in foliar and blossom sprays. Make first spray at the start of blossoming period. Continue spray applications every 3 to 4 days during bloom time. Apply additional sprays every 5 to 7 days after blossom period when weather conditions favor spread of Fire Blight. Do not apply when fruit is visible.

PYRACANTHA: To control Fire Blight, apply a solution of 1 level tablespoon of ferti-lome® FIRE BLIGHT SPRAY per 2% gallons of water (100 ppm concentration). Begin spraying at start of blossom period. Repeat at 3 to 4 day intervals during bloom and at 5 to 7 days intervals after bloom if weather favors Disease spread.

CHRYSANTHEMUMS (Cuttings): To control Bacterial Wilt, soak cuttings for 4 hours in a solution containing 1/4 tablespoon of ferti-lome® FIRE BLIGHT SPRAY per 2% gallons of water (50 ppm concentration) and plant as usual.

DIEFFENBACHIA: To control Bacterial Stem Rot, spray plants at 5 to 7 day intervals with a solution of 1 level tablespoon of ferti-lome® FIRE BLIGHT SPRAY in 2% gallons water (100 ppm concentration) or soak cuttings for 20 minutes in a solution of 2 level tablespoons in 2% gallons of water (200 ppm concentration) and plant in sterile rooting medium.

PHILODENDRON: To control Bacterial Stem Rot, remove all decayed leaves and spray with a solution of 2 level tablespoons of ferti-lome® FIRE BLIGHT SPRAY in 2% gallons of water (200 ppm concentration) as preventative or at first sign of water soaked leaves. Repeat at 4 to 5 day intervals.

ROSES: To control Crown Gall, remove infected Plant and cut out gall tissue. Soak root system and cut surfaces of infected area for 15 minutes in a solution of 2 level tablespoons of ferti-lome® FIRE BLIGHT SPRAY per 2% gallons water (200 ppm concentration). Replant in soil free from Disease organisms, and apply 1/4 tablespoon per 2% gallons water (50 ppm concentration) as foliage spray at weekly intervals.
