CONFLIKT®

• Cleaner- *Virucide - Disinfectant - Deodorizer
• Tuberculocidal - Mildewstat (on hard, inanimate surfaces)
• Bactericidal - Fungicide (against pathogenic fungi)
• Kills Pandemic 2009 H1N1 Influenza A Virus (formerly called swine flu)

CLEANS, Disinfects and Deodorizes in One Easy Step

ACTIVE INGREDIENTS:
n-Alkyl (60% C10, 30% C12, 5% C14, 5% C10) dimethyl benzyl ammonium chloride ........... 0.105%
n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides ............... 0.105%

INERT INGREDIENTS:
Conflikt is designed specifically as a general non-acid cleaner and disinfectant for use in hospitals, nursing homes and schools and food processing plants. It is formulated to disinfect hard, non-porous, inanimate surfaces and cabinets. For plastic and painted surfaces, spot test on an inconspicuous area before use. A rinse with potable water is required for surfaces in direct contact with food. In addition, this product deodorizes those areas which generally are hard to keep fresh smelling, and are prone to odors caused by microorganisms.

DIRECTIONS FOR USE - It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Conflikt is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.

DIRECTIONS FOR CONFLIKT IN REFILL BOTTLES - Fill or refill the 16 oz./52 oz. Conflikt spray bottle with the Conflikt refill. Pour product into spray bottle over sink or tub basin.

DISINFECTION, DEODORIZING AND CLEANING - Remove gross filth or heavy soil prior to application of Conflikt. Hold container six to eight inches from surface to be treated. Spray area until it is covered with the solution. Allow solution to penetrate and the surface to be treated for 3 minutes. For bloodborne pathogens: allow surface to remain wet for HIV-1 1 minute and for HBV and HCV 5 minutes. No scrubbing is necessary. Wipe off with a clean cloth, mop or sponge. Conflikt will not leave grit or soap scum.

TO DISINFECT FOOD PROCESSING PREMISES - Before using Conflikt, food products and packaging materials must be removed or carefully protected. For floors, walls and storage areas, hold container six to eight inches from the surface to be treated and spray area until it is covered with the solution. Allow Conflikt to remain wet for 3 minutes (for Bloodborne Pathogens: allow surface to remain wet for HIV-1 1 minute and for HBV and HCV 5 minutes). Wipe off with a clean cloth, mop or sponge and thoroughly rinse all surfaces in the area with potable water. Soiled areas must be pre-cleaned before using this product. Using approved AOAC test methods (under Good Laboratory Practices, (GLPs)), in the presence of 5% blood serum, Conflikt shows 99.790% contact time on clean, non-porous hard surfaces as found in bathrooms, shower stalls, locker rooms, or other areas commonly contacted by bare feet.

BACTERIAL ACTIVITY (BACTERIA)
Pseudomonas aeruginosa (ATCC 15492)
Staphylococcus aureus (ATCC 6538)
Salmonella (choleraesuis) enterica (ATCC 10078)
Escherichia coli (ATCC 11229)
Escherichia coli (ATCC 0157H7, ATCC 43859)
Listeria monocytogenes (ATCC 33152)

ANTIBIOTIC RESISTANT BACTERIAL ACTIVITY
Methicillin resistant Staphylococcus aureus (MRSA), (ATCC 33593)
Vancomycin resistant Enterococcus faecalis (VRE), (ATCC 51575)
Vancomycin intermediate resistant Staphylococcus aureus (VISA), (CDK Isolate 99287)
Methicillin resistant Staphylococcus epidermidis (MRSE), (ATCC 31625)
Community Associated Methicillin resistant Staphylococcus aureus (CA-MRSA), (NRS 123) genotype USA300
Community Associated Methicillin resistant Staphylococcus aureus (CA-MRSA), (NRS 384) genotype USA300

TUBERCULOCIDAL ACTIVITY - Conflikt exhibits tuberculocidal efficacy against Mycobacterium tuberculosis BCG at 20 degrees Centigrade when the treated surface is allowed to remain wet for 5 minutes.

DISINFECTANT ACTIVITY: Conflikt kills on hard, non-porous inanimate surfaces when allowed to remain wet for a 10 minute contact time against:
Canine Parvovirus (ATCC VR-207)
Human A Virus (HAV) (University of Ottawa)
Poliomyelitis Virus Type 1 (ATCC VR-1000)

Phages when used on environmental, inanimate hard surfaces exhibits virucidal activity against:
Hepatitis B Virus (HBV) (Hepadnaviridae, Inc.)
Hepatitis C Virus (HCV) and Hepatitis B Virus (HBV) (Hepadnaviridae, Inc.)
Bovine Viral Diarrhea Virus (BVDV) (NIVS) when the treated surface is allowed to remain wet for 5 minutes; Human Coronavirus (ATCC VR-740), SARS associated Coronavirus (ZoetisMerieux)
Avian Influenza A (Avian Influenza Strain H5N1 and H7N2) for 2 minutes, Paramyxovirus (Mumps) (ATCC VR-1463), Rhinovirus type 39 (ATCC VR-340) and Rotavirus (University of Ottawa) for 3 minutes; HIV-1 (associated with AIDS) (Advanced Biotechnologies, Inc.) for 1 minute (60 seconds); Norovirus (Norwalk Virus), Feline Calicivirus (University of Ottawa) and Rabies Virus (CD) for 30 seconds.

KILLS HIV-1, HBV and HCV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings (Hospitals, Nursing Homes) or other settings in which there is a significant risk of exposure to blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Hepatitis B Virus (HBV), and Hepatitis C Virus (HCV).

INFECTION CONTROLS: For solutions and cleaning and decontamination against HIV-1, HBV, and HCV on surfaces/objects soiled with blood/body fluids.

PERSONAL PROTECTION: When handling items soiled with blood or body fluids use disposable latex gloves, gowns, masks, and eye coverings.

KEEP OUT OF REACH OF CHILDREN

Conflikt is not designed specifically as a general non-acid cleaner and disinfectant for use in hospitals, nursing homes and schools and food processing plants. It is formulated to disinfect hard, non-porous, inanimate environmental surfaces: floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces and cabinets. For plastic and painted surfaces, spot test on an inconspicuous area before use. A rinse with potable water is required for surfaces in direct contact with food. In addition, this product deodorizes those areas which generally are hard to keep fresh smelling, and are prone to odors caused by microorganisms.

FUNGICIDAL ACTIVITY - Conflikt is fungicidal against the pathogenic fungus, Trichophyton mentagrophytes (ATCC 95531) (Athlete’s Foot Fungus) (a cause of ringworm of the foot). When used with a 10 minute contact time, clean, non-porous hard surfaces as found in bathrooms, shower stalls, locker rooms, or other areas commonly contacted by bare feet. Efficacy tests have demonstrated that Conflikt is an effective bactericide, fungicide, and virucide in the presence of organic soil (5% blood serum).

MILDEWSTAT - To control mold and mildew on pre-cleaned, hard, non-porous surfaces spray surface to be treated making sure to wet completely. Let air dry. Repeat application at weekly intervals or when mildew growth appears.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

KEEP OUT OF REACH OF CHILDREN. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN
Probable mucosal damage may contaminate the use of gastric lavage.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.

PESTICIDE STORAGE - Store in a dry place lower in temperature than 50°F or higher than 120°F.

PESTICIDE DISPOSAL - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticides, purchase less than you need as indicated by Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL - Nonrefillable container. Do not reuse or refill container. Clean container promptly after emptying. Triple rinse as follows: Fill container l/2 full with water and recap. Agitate vigorously. Pour out water and cap. Use contents for cleaning of metal, plastic surfaces, or porcelain and for an application as indicated by the label. If not available, puncture and dispose in a sanitary landfill.

CONTAINER DISPOSAL FOR REFILL SPRAY BOTTLE - Do not reuse empty spray bottle except with refill bottle, otherwise discard in trash. Do not reuse empty refill bottle. Wrap refill bottle and discard in trash.
