**PECIFIC**

Causes severe eye damage and skin burns. Harmful or fatal if swallowed. Do not get in eyes, on skin, or on clothing.

**HAZARDS**

Antimicrobial Fruit and Vegetable Wash. Controls the Growth of Spoilage and Decay Causing organisms in wash waters and on the surface of fruits and vegetables. This product is not intended for control of any public health and invertebrate organisms in wash waters. Do not discharge effluent containing this product into lakes, streams, ponds, dry wells, or sewers without first obtaining guidance from the local sewage treatment plant authority. Consult with local state water board or EPA Regional Office for guidance. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be prevented from entering sewers, contact your state Superfund Program office or your local EPA Regional Office.

**STORAGE**

Product should be kept cool and in a vented container to avoid any overheating. Do not contaminate water or food by storage or disposal. Do not store in or near building sewers or sewers or other waterways.

**DISPOSAL**

Non-refillable container. Do not reuse or refill this container. Triple rinse empty container and recycle or dispose in a sanitary landfill or by incineration. Do not burn in household incinerator. Do not pour down sink drains.

**COMPATIBILITY**

Mix Victory with water either batchwise or continuously by initially adding 1.0 fluid ounce per 16.4 gallons of water (53.3 grams or (48 mL) of Victory to 16.4 gallons of water. A continuous mixing rate of 0.1 fluid ounce per gallon of water will provide a 99.9% reduction of the pathogens Listeria monocytogenes and Salmonella enterica. A batch mixing rate of 1.0 fluid ounce per 16.4 gallons of water will provide a 99.9% reduction of the pathogens Listeria monocytogenes and Salmonella enterica. The 1.0 fluid ounce per 16.4 gallons of water mixing rate is recommended for public health environments, while the 0.1 fluid ounce per gallon of water mixing rate is recommended for food safety environments.

**APPLICATION**

Can be applied to the following types of fresh, post harvest, and further processed fruit and vegetables: Citrus fruits, pome fruits, stone fruits, small fruits and berries, tuber vegetables, bulb vegetables, leafy vegetables, Brassica leafy vegetables, legumes, tree nuts, oilseeds, cereals, root vegetables, and invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, dry wells, or sewers without first obtaining guidance from the local sewage treatment plant authority. Consult with local state water board or EPA Regional Office for guidance. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be prevented from entering sewers, contact your state Superfund Program office or your local EPA Regional Office.

**SAFE USE**

This product is toxic to birds, fish, and aquatic life. Keep out of reach of children. Avoid contact with skin, eyes, and clothing.

**LABELING**

For Emergency Medical Information Worldwide, call 1-651-222-5352 (in USA). For Emergency Medical Information in USA or Canada, call 1-800-328-0026. Poison Control Center or Doctor.
