KAY Surface Sanitizer

For Restaurant, Bar and Institutional Kitchen Use

An effective sanitizer for use on food contact surfaces

Active Ingredients:
- Dodecyl dimethyl benzyl ammonium chloride ............................................................ 3.00%
- Dioctyl dimethyl ammonium chloride ........................................................................... 0.90%
- Alkyd (C14, 50%; C12, 40%; C16, 10%) ................................................................. 1.35%
- Dimethyl benzyl ammonium chloride ............................................................................ 2.50%
- Other Ingredients ........................................................................................................ 92.50%
- Total ......................................................................................................................... 100.00%

KAY® Surface Sanitizer is an effective sanitizer at 150 ppm active quat for use on food contact surfaces in 400 ppm hard water against:
- Escherichia coli, Staphylococcus aureus
- Campylobacter jejuni, Escherichia coli, Escherichia coli O157:H7, Klebsiella pneumoniae, Listeria monocytogenes, Salmonella enterica, Shigella sonneii, Staphylococcus aureus, Staphylococcus aureus-Community Associated Methicillin-Resistant
- Staphylococcus aureus-Community Associated Methicillin-Resistant
- (CA-MRSA)(MR384)(USA300).
- Staphylococcus aureus-Community Associated Methicillin-Resistant
- Versinia enterococca, Vibrio cholera

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Scrape and pre-wash utensils and glasses
2. Rinse with potable water.
3. Add 0.34 oz. of KAY® Surface Sanitizer per gallon of water (150-400 ppm active) or equivalent dilution to pre-cleaned hard surfaces thoroughly wetting surfaces. Use-solution with a cloth, mop, sponge, sprayer or by immersion, thoroughly wetting surfaces.

4. Sanitize in a solution of 0.34-0.68 oz. of KAY® Surface Sanitizer per gallon of water (200 ppm activequat) or equivalent dilution for at least 60 seconds followed by adequate draining and air drying. Do not reuse or refill this container. Clean container promptly after emptying and before refilling as follows: Fill container 1/4 full with water and reclose the container. Agitate vigorously, and dispose of rinseate consistent with pesticide disposal instructions. Repeat two more times. Then offer rinseate consistent with pesticide disposal instructions for rinsate. If not triple rinsed, these containers are acute hazardous wastes and must be disposed of according to state and local, and federal regulations.

5. Place sanitized utensils on a rack or drain board to air dry.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Harmful if swallowed or absorbed through the skin. Wear protective eyewear (goggles, face shield, or safety glasses), protective clothing and protective gloves (rubber, chemically resistant) when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID

F IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

F ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled, get person into fresh air and keep warm. If not breathing, give artificial respiration. Do not give mouth to mouth if not breathing.

NOTE: A clear potable water rinse following sanitization is not permitted under Section HFS 196, Appendix 7-204.11 of the Wisconsin Administrative Code (reference 40 CFR 180.940 (a)).

TO SANITIZE NON-FOOD CONTACT SURFACES: Add 0.34 oz. of KAY® Surface Sanitizer per gallon of water (200 ppm activequat) or equivalent dilution to sanitize hard, nonporous surfaces. Apply sanitizer use-solution with a cloth, mop, sponge, sprayer or by immersion, thoroughly wetting surfaces.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Open dumping is prohibited. Store in original container in areas inaccessible to children.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Storage: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying and before refilling as follows: Fill container 1/4 full with water and reclose the container. Agitate vigorously, and dispose of rinseate consistent with pesticide disposal instructions. Repeat two more times. Then offer for recycling if available or puncture and dispose in sanitary landfill or by other procedures approved by state and local authorities. Follow pesticide disposal instructions for rinsate. If not triple rinsed, these containers are acute hazardous wastes and must be disposed of according to local, state, and federal regulations.
