INTRODUCTION: ZOECON® PRECOR® IGR CONCENTRATE (Precor®) is a contact insecticide and an acaricide with insect growth regulation (IGR) activity. It is a white to light tan, non-foaming, concentrated liquid formulation. The product is odorless and has a faint aromatic aftertaste. It contains 0.012% (S)-methoprene as an IGR.

Method and Rate of Application:

Prepare a diluted spray solution with a final concentration of 0.007% (S)-methoprene by adding 1 fl oz of Precor® to 1 gallon of water. Partially fill the mixing container with 1/2 gallon of water, add Precor®, agitate and complete filling of spray tank. Mix and agitate once more. For indoor applications, use a tank-mix approach, agitate, and then add Precor®, agitate and complete filling of spray tank.

Fitting the sprayer with a fan tip and a bursting disc is recommended. When spraying vertically, be sure to follow the manufacturer’s instructions for the sprayer being used. Varied flow rates and nozzles, water collection, and other factors can influence effectiveness. (S)-Methoprene concentration of approximately 0.007%, by adding 1 fl oz of Precor® to 1 gallon of water. Partially fill the mixing container with 1/2 gallon of water, add Precor®, agitate and complete filling of spray tank. Mix and agitate once more.

Cover all areas harboring fleas, including carpets, furniture, pet sleeping and bedding areas, and throw rugs. Treat under cushions of upholstered furniture. Avoid contact with eyes, skin, and clothing. If contact occurs, wash thoroughly with soap and water immediately. Precor® prevents adult flea emergence for up to 7 months. Existing adult fleas and flea pupae are not affected. If a high population of adult fleas (the immature life stages of the flea, preventing the adult flea from developing. Flea eggs deposited on, and larvae crawling onto treated areas will not develop into adult fleas. Precor® will not stain areas that would not be stained by water alone. It will not stain most common consumer materials when used according to label directions. It will not damage most fabrics, but should be tested on an inconspicuous area first.

Precor® is effective on cats and dogs and their bedding. Precor® is recommended for on-site protection of areas where pets are housed. Precor® can be used as a preventative for flea infestation. Precor® will not stain areas that would not be stained by water alone. Precor® is effective when used according to label directions. Precor® is a non-toxic product. Precor® is a registered trademark of Wellmark International.

PRECAUTIONARY STATEMENTS – HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

CAUTION: Harmful if absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water before eating, drinking, or smoking. If on skin or clothing: Wash well with soap and water. If in eyes: Rinse well with water for 15 minutes, remove contact lenses if present, then continue rinsing. If on skin: Wash well with soap and water. If swallowed: Do not induce vomiting. Give 1-2 glasses of water and notify a physician or a poison control center. Do not give anything by mouth to an unconscious person.

First Aid:

If on skin or clothing: Wash well with soap and water. If in eyes: Rinse well with water for 15 minutes, remove contact lenses if present, then continue rinsing. If swallowed: Do not induce vomiting. Give 1-2 glasses of water and notify a physician or a poison control center. Do not give anything by mouth to an unconscious person.

Effectiveness:

Precor® will not stain areas that would not be stained by water alone. Precor® is effective on cats and dogs and their bedding. Precor® is recommended for on-site protection of areas where pets are housed. Precor® can be used as a preventative for flea infestation.
