Brominating Tablets
Pastillas de Bromo

ACTIVE INGREDIENTS:
1-bromo-3-chloro-5,5-dimethylhydantoin..... 54.2%
1,3-dichloro-5,5-dimethylhydantoin ............. 28.9%
1,3-dichloro-5-ethyl-5-methylhydantoin........15.9%
OTHER INGREDIENTS: ....................................  1.0%
TOTAL:........................................................100.0%
Total Available Halogen as bromine........ 141%
Total Available Halogen as chlorine.......62.8%

KEEP OUT OF REACH OF CHILDREN
DANGER:
See back panel for additional Precautionary Statements and First Aid.

MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS
PELIGRO

Ideal for Sanitizing
Creates a Soft Water Feel
Low Odor
Fits All Floaters

NET CONTENTS: 5 LBS. (2.28 KG)
When used as directed, HTH Spa® Brominating Tablets will disinfect spa and hot tub water, keeping it clean, clear and free of odor. HTH Spa® Brominating Tablets give the effectiveness of chlorine without the chlorine odor. Proper sanitary practices require changing spa water at a minimum of every 30 days.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. DANGER. Do not mix this product in concentrated form with any other chemicals. Do not add other chemicals to the feeding device when using this product. A violent reaction leading to fire and/or explosion could result. Re-entry into treated spas is prohibited above levels of 8 ppm due to risk of bodily injury.

NOTE: Before using HTH Spa® Brominating Tablets in your spa or hot tub for the first time, add 1/2 ounce of sodium bromide per 100 gallons of water to establish a 30 ppm bromide concentration. Also, add sodium bromide at this dosage whenever the spa or hot tub is drained and refilled. The bromide addition ensures immediate establishment of an all-bromide system, eliminates chlorinous odors and maximizes skin and eye comfort.

SPA OR HOT TUB START UP: To start up a new spa or hot tub, or one recently drained, clean all surfaces, backflush or clean the filter, chemically balance the calcium hardness and total alkalinity, treat for metals if present (iron, copper and manganese), and adjust the pH to 7.2 – 7.8. Using a suitable feeder adjusted to maintain an active bromine concentration of 2 to 4 ppm in residential bromine regularly.

Superoxidation or superchlorination with a suitable oxidizing shock treatment should be done on a regular basis to remove these wastes and maintain clear sparkling water. Suitable oxidizing agents are those based on calcium hypochlorite, lithium hypochlorite, sodium hypochlorite or potassium peroxymonopersulfate.

STORAGE AND DISPOSAL: Store in original container in areas inaccessible to children in a cool, dry, well-ventilated area. Do not store at temperatures above 100°F. Nonrefillable container. Do not reuse or refill this container. Discard empty container in trash or offer for recycling if available.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMAN AND DOMESTIC ANIMALS

DANGER: HIGHLY CORROSIVE. Causes irreversible eye damage and skin burns. May be fatal if swallowed. Do not take internally, irritating to nose and throat. Avoid breathing dust. Use with adequate ventilation. Do not get into eyes, on skin or on clothing. Wear protective clothing, chemical resistant gloves and protective eyewear (goggles, face shield or safety glasses). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

FIRST AID

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

PHYSICAL AND CHEMICAL HAZARDS

CHEMICAL HAZARD: STRONG OXIDIZING AGENT. Mix only with water. Use clean dry utensils. Do not add this product to any dispersing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with this product. In case of contamination or decomposition, DO NOT re-seal container. If possible, isolate container in open air or well-ventilated area. Flood with large volumes of water if necessary.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish.
