It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons.

**COOLING WATER SYSTEMS**: WSKT 10 may be used to control the growth of microorganisms including bacteria and algae in recirculating cooling water systems. In noticeably fouled systems, add WSKT 10 at a dosage rate of 11.6 to 92.8 fluid ounces per 1000 gallons of system water (100 to 600 ppm WSKT 10). Clean extremely fouled systems to remove excess algal growth, excessive biofilm, and other deposits prior to program initiation. To maintain control, add subsequent additions of 11.6 to 50.0 fluid ounces per 1000 gallons of system water (100 to 500 ppm WSKT 10). Not registered for this use in California.

**AIR WASHER SYSTEMS**: WSKT 10 may be used to control microbiological fouling in industrial airwash systems. Clean extremely fouled systems prior to application of WSKT 10. When systems are noticeably fouled, add WSKT 10 at a dosage rate of 11.6 to 92.8 fluid ounces per 1000 gallons of system water (100 to 800 ppm WSKT 10) daily until control is evident. To maintain control, add subsequent additions of 11.6 to 50.0 fluid ounces per 1000 gallons of system water (100 to 500 ppm WSKT 10). Not registered for this use in California.

**METALWORKING FLUID SYSTEMS**: WSKT 10 may be used to prevent microbial degradation and fouling in metalworking fluid systems. Add WSKT 10 tank-side to the system at 23.2 to 323 fluid ounces per 1000 gallons of dilute fluid (200 to 2000 ppm product) as needed to maintain control. Clean systems with excessive fouling prior to initiating the program. Not registered for this use in California.

**FIRE WATER PROTECTION SYSTEMS**: WSKT 10 can be added to help control microorganisms which may foul or cause damage to the system. Add WSKT 10 at the system intake at a dosage rate of 0.05 to 0.5 fluid ounces per 1000 gallons of water. Evaluate subsequent doses based on microbiological activity and product level testing. Not registered for this use in California.

**PETROLEUM SECONDARY RECOVERY**: WSKT 10 is used to control sulfate reducing bacteria and slime formers in oil field water, polymer or micellar floods, water disposal systems, and other oil field water systems. WSKT 10 is used at concentrations of 100 to 800 ppm (weight/weight) or 11.6 to 82.8 fluid ounces per 1000 gallons of treated water. Make additions continuously or intermittently by means of a chemical-metering pump at the free water knockout, before or after injection pumps and injection well headers. Continuous Feed Method: When system is noticeably fouled, add WSKT 10 at a rate of 100 to 800 ppm (weight/weight) or 0.7 to 5.6 fluid ounces per 1000 gallons of water until desired degree of control is achieved. Then treat with 100 to 800 ppm (weight/weight) or 11.6 to 92.8 fluid ounces per 1000 gallons of treated water, continuously, or as needed to maintain control. Intermittent Feed Method: When desired, WSKT 10 can be fed directly by a timed chemical-metering pump. The dosage rate and feed time vary according to the degree of fouling, but typically 200 to 800 ppm (weight/weight) or 23.2 to 92.8 fluid ounces per 1000 gallons of water is added to the treated system for 4-8 hours per day, 1-4 times per week, or as needed to maintain control. Not registered for this use in California.

**Storage and Disposal**

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE**: Do not contaminate food or feed by storage, disposal or cleaning of equipment. This product is corrosive to mild steel. Do not store or transport in unlined metal containers.

**PESTICIDE DISPOSAL**: Pesticide wastes are hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative of the nearest EPA Regional Office for guidance.

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**: Corrosive. Causes irreversible eye damage. Do not get in eyes or on clothing. Wear goggles, face shield, or safety glasses. Harmful if swallowed or absorbed through skin. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco, or using the toilet. Remove contaminated clothing and wash with soap and water. Prolonged or repeated skin contact may cause allergic reaction in some individuals.

**Personal Protective Equipment**: Applicators and other handlers must wear: coveralls over long-sleeved shirt and long pants, socks and chemical-resistant footwear, goggles or face shield, or safety glasses. Harmful if swallowed or absorbed through skin. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco, or using the toilet. Remove contaminated clothing and wash with soap and water. Prolonged or repeated skin contact may cause allergic reaction in some individuals.

**Precautionary Statements**

Hazardous to Humans and Domestic Animals

**DANGER**: Causes irreversible eye damage. Do not get in eyes or on clothing. Wear goggles, face shield, or safety glasses. Harmful if swallowed or absorbed through skin. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse. Prolonged or repeated skin contact may cause allergic reaction in some individuals.

**Environmental Hazards**: This pesticide is toxic to fish and wildlife. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. If you do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Do not contaminate water by cleaning of equipment or disposal of waste. Apply this pesticide only as specified on the label.
