DIRECTIONS FOR USE:

†Kills HIV, HBV, and HCV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids

To Disinfect: Prior to use, wear appropriate barrier protection such as gloves, gowns, masks, or eye covering. Cleaning Procedure: Use the probe with a pre-clean gel from external surface of ultrasound transducer or probe to be disinfected with a paper towel or clean cloth. Then thoroughly wet the probe with the disinfectant solution. Let stand for one minute.消毒设备 prior to sterilization or high level disinfection.

To Clean, Disinfect, & Deodorize in One Step: Wipe surface with towel until completely wet. Let stand for 5 minutes. Wipe dry or allow to air dry. Gross soil must be removed prior to disinfecting. Gloves should be worn.

Hospitals use for cleaning and disinfecting gurneys, wheelchairs, exam tables, gurneys, infant incubators and care cribs, IV poles, phlebotomy trays, PVC tubing, stretchers, tables, areas, intensive care units (ICU), laboratory, nursing homes, physical therapy, physician offices, radiology, nursery or daycare, patient rooms, operating rooms, emergency recovery (ER), ICU, neonatal intensive care units (NICU), pediatric ER, ICU, neonatal intensive care units (NICU), pediatric

Conditions for Cleaning and Decontamination Against HIV-1 (AIDS Virus), HBV, and HCV on Surfaces/Objects Soiled with Blood/Body Fluids. Personal Protection: Wear appropriate barrier protection such as gloves, gowns, masks, or eye covering. Cleaning Procedure: Fecal matter/waste must be thoroughly cleaned from surfaces/objects before disinfection by application with this product. Cleaning is to include vigorous wiping and/or scrubbing, until all visible soil is removed. Special attention is needed for high-touch surfaces. Surfaces in patient rooms are to be cleaned in an appropriate manner, such as from right to left or left to right, on horizontal surfaces, and top to bottom, on vertical surfaces, to minimize spreading of the spores. Restrooms are to be cleaned last. Do not reuse soaked cloths.

Infectious Materials Disposal: Materials used in the cleaning process that may contain feces/wastes are to be disposed of immediately in accordance with local regulations for infectious materials disposal. Disinfection Procedure: Wipe surface with towel until completely wet. Let stand for 5 minutes. Wipe dry or allow to air dry. Gross soil must be removed prior to disinfecting. Gloves should be worn.

Ultrasound Transducers and Probes**: For use on external surfaces of ultrasound transducers and probes only.

To Disinfect: Pre-clean gel from external surface of ultrasound transducer or probe to be disinfected with a paper towel or clean cloth. Then thoroughly wet the probe with the disinfectant towel. Let stand for one minute. To kill TB, let stand for two minutes at room temperature.

Efficacy tests have demonstrated that this product is an effective bactericide, virucide, tuberculocide, and fungicide in the presence of organic soil (5% blood serum).

†Kills HIV, HBV, and HCV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in healthcare settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids, and in which the surfaces/objects likely to be soiled with blood/body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Hepatitis B Virus (HBV), and Hepatitis C Virus (HCV).

Spores

Spores

Contact Time: Let stand for one minute. Disposal of Infectious Materials: Blood, blood fluids, and cleaning materials should be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal.

**This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

Manufactured for:
©2011 Caltech Industries, Inc.

Pre-moistened disposable towels for use in healthcare and other areas where control of cross contamination is required. Meets OSHA bloodborne pathogen standards. Surfaces: May be used on hard non-porous surfaces such as stainless steel, glazed ceramic tile, hard plastics, non-porous vinyl, painted surfaces, glazed porcelain, sealed fiberglass surfaces, Plexiglas, laminated plastic countertops, and glass.

**USE SITES:**

Hospital and Healthcare: clinics, dental offices, emergency rooms (ER), hospitals, hospital central service areas, intensive care units (ICU), laboratory, nursing homes, physical therapy, physician offices, radiology, recovery rooms, and surgery. Critical Care Areas: ER, ICU, neonatal intensive care units (NICU), pediatric intensive care units (PICU), and surgery.

APPLICATIONS:

Hard non-porous surfaces such as autoclaves, bed railings, blood glucose monitors, cabinets, carts, chairs, counters, exam tables, gurneys, infant incubators and care cribs, IV poles, phlebotomy trays, PVC tubing, stretchers, tables, ambulance equipment, diagnostic equipment, dialysis machines, mammography equipment, patient monitoring equipment, respiratory equipment, ultrasound transducers and probes, and wheelchairs. Nursery or Daycare Centers: Changing tables, cribs, trash cans, toys, and other hard, non-porous surfaces listed on this label.

STORAGE AND DISPOSAL: Store this product in a cool, dry area away from direct sunlight and heat. When not in use, keep center cap of lid closed to prevent moisture loss. Nonrefillable container. Do not reuse or refill this container. Discard used towels and container in trash or take container to recycling center. Do not flush towels down toilet.

PRECAUTIONARY STATEMENTS: Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. FIRST AID: If in eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. If present, remove contact lenses after the first 5 minutes of rinsing, then continue rinsing eye. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

PHYSICAL AND CHEMICAL HAZARDS: Do not use this product with ammonia or acids such as vinegar, rust removers, or toilet bowl cleaners. This product not intended for use on fabrics.
