GOODS AND SERVICES

- Sulfate alternates clay, foot and uric acid deposits.
- Effective against gram-negative and gram-positive bacteria, Pseudomonas aeruginosa, Escherichia coli, and Staphylococcus aureus.
- Eliminates offensive odors.
- Kills the following germs: Pseudomonas aeruginosa, Staphylococcus aureus, and Salmonella cholerae suis.
- In addition to its action as a disinfectant, it is an effective virucide in the presence of 5% serum against the Virus HIV-1 (Human Immunodeficiency Virus 1, commonly referred to as AIDS Virus) on inanimate surfaces.

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals
Danger: Corrosive. Causes eye and skin damage. May be fatal if swallowed. Do not induce vomiting or induce emesis. If person is not breathing, give artificial respiration. Have person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person. If swallowed, keep person in an upright position, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. If person is breathing, give nothing by mouth. Do not induce vomiting unless told to do so by the poison control center or doctor.

Physical and Chemical Hazards
Never use with chlorine products. Can react to give chlorine gas. If this occurs, flush toilet to remove chemicals and leave.

Personal Protection
Wear goggles or face shield and rubber gloves when handling. Use with adequate ventilation. 

If inhaled: If symptoms occur, get medical attention immediately.

If in eyes:
Hold open and rinse slowly and gently with water for 15-20 minutes. Call a poison control center or doctor for further treatment advice. 

If on skin or clothing: 
Take off contaminated clothing. Rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.

Ingestion:
Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. 
Do not induce vomiting unless told to do so by the poison control center or doctor.

If swallowed: 
Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. 
Do not induce vomiting unless told to do so by the poison control center or doctor.

Inhalation:
If inhaled: If symptoms occur, get medical attention immediately.
