**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with the labeling. Subsequent slug additions of 1 oz. Ultra-Kleen CW-502 per 1000 gallons of water contained in the system. If necessary, apply a solution containing 0.016 to 0.08 lbs. Ultra-Kleen CW-502 per gallon of water orifice surfaces of the system that are not continuously submerged. **Subsequent Dose:** When microbial control is evident, subsequent slug additions of 1 to 5 lbs. Ultra-Kleen CW-502 per 1000 gallons of water are employed every 1 to 5 days or as needed. The frequency of addition depends on the relative amount of bleed off, the quality of the makeup water and rate of inflow of airborne or other contaminants. Slug additions are made in the system by adding a solution of 40 to 400 lbs. of Ultra-Kleen CW-502 per 1000 gallons of system capacity. Circulate for at least 4 hours and then drain system. Repeat this system every 6 to 8 hours until a solution containing 0.04 to 0.2 lbs. Ultra-Kleen CW-502 per gallon onto surfaces of the equipment that are not submerged.

**PESTICIDE STORAGE:**

Nonrefillable container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Fill the container ¼ full with water and recap. Shake for 10 seconds. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Dispose of rinse as pesticide waste. Do not re-use or refill this container. Offer for recycling, if available or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. If rinse cannot be used, follow pesticide disposal instructions. If not triple rinsed these containers are acute hazardous wastes and must be disposed in accordance with local, state and federal regulations.

**PESTICIDE DISPOSAL:**

Seller warrants that this product complies with the specifications and is free of other contaminants, and delivers in the quantities and as described in the purchase order. Seller’s liability or default, breach or failure under this label shall be limited to the amount of the purchase price. Seller shall have no liability

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

Prepares a solution of 0.08 to 0.2 lbs. Ultra-Kleen CW-502 per gallon of water contained in a dye storage tank. Circulate the solution from the dye storage tank through the dye machine and all associated piping, dye and water circuits and dye tanks. Subsequent Dose:** When microbial control is evident, subsequent slug additions of 0.016 to 0.08 lbs. Ultra-Kleen CW-502 per gallon of water onto surfaces of the system that are not continuously submerged. Slug additions are made in the system by adding a solution containing 0.04 to 0.2 lbs. Ultra-Kleen CW-502 per gallon onto surfaces of the equipment that are not submerged.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contribute to irritation. Do not re-use or refill this container. Offer for recycling, if available or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. If rinse cannot be used, follow pesticide disposal instructions. If not triple rinsed these containers are acute hazardous wastes and must be disposed in accordance with local, state and federal regulations.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product to lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewers without previously consulting the local sewage treatment plant. Contact your Local State Water Board or Regional Office of the EPA.

**PHYSICAL AND CHEMICAL HAZARDS:** When exposed to fire, Ultra-Kleen CW-502 may release oxygen and oxides of carbon and/or nitrogen.

**STORAGE AND DISPOSAL:**

Pesticide Storage: Store out of children’s reach. Store in room temperature out of direct sunlight. DO NOT store above 30°C (or 86°F).
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with the labeling shown below. Subsequent addition of this product prevents stoppage and odors. DOSAGE RATES. Initial Dose for badly fouled systems. Add 16 to 80 lbs. of Ultra-Kleen CW-502 per 1000 gallons of water contained in the system. If necessary, apply a solution containing 0.016 to 0.08 lbs. Ultra-Kleen CW-502 per gallon of water onto interior surfaces of the system that are not continuously submerged. Subsequent Doses: When microbial control is evident, subsequent slug additions of 1 to 5 lbs. Ultra-Kleen CW-502 per 1000 gallons of water are employed every 1 to 5 days or as needed. The frequency of addition depends on the relative amount of bleed off, the quality of the makeup water and rate of inflow of airborne or other contaminants. Slug additions are made in the sum of three increments. Appropriately proportioned portions of the solution containing 0.016 to 0.08 lbs. Ultra-Kleen CW-502 per gallon onto surfaces of the equipment that are not submerged.

Pesticide Storage: Pesticide wastes are acutely hazardous. Air Washers

Brewery Pasteurizing Systems

For use only in the production of pulp and paper that will not contact food. If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after at least 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

If on Skin: Take off contaminated clothing, Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If oral ingestion: Do not induce vomiting unless told to do so by a poison control center or doctor not to give anything by mouth to an unconscious person. If Inhaled: Call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Not To Be Sold Into the State of California

Environmental Hazards. This product is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, ocean or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without first consulting the local sewage treatment plant authority. For guidance, contact your Local State Water Board or Regional Office of the EPA.

Physical and Chemical Hazards. When exposed to fire, ULTRA-KLEEN CW-502 may release oxygen and oxides of carbon and/or nitrogen.

Storage and Disposal: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available or permit and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Completely empty bag into application equipment by shaking and tapping sides and bottom to loosen depositing particles. If not emptied in this manner, the bag may be considered an acute hazardous waste and must be disposed of in accordance with local, state and federal regulations. When completely empty, offer for recovery if available or dispose of in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Note: Seller warrants that this product complies with the specifications contained on this label. Seller makes no other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose.
