**FIRST AID**

- **If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- **If Swallowed:** Call a poison control center or doctor for treatment advice.
- **If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
- **If Inhaled:** Move person to fresh air. Provide artificial respiration, if necessary. Keep person quiet and warm. Call a poison control center or doctor for further treatment advice.

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high-water mark. Intrusion or drift may be hazardous to aquatic organisms in neighboring areas.

**ENVIRONMENTAL HAZARDS**

This product is toxic to aquatic invertebrates and wildlife. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high-water mark. Intrusion or drift may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washing water or rinse water. This chemical is known to leach through soil into groundwater under certain conditions as a result of label use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. This chemical can contaminate surface water through spray drift. Under some conditions it may also have a high potential for runoff into surface water for several days to weeks after application. These include poorly draining or wet soils with readily visible slop toward adjacent surface waters, frequently flooded areas, areas overlying extremely shallow groundwater, areas with infested canals or ditches that drain to surface water, areas not separated from adjacent surface waters with vegetative filter strips, and areas overlying tile drainage systems that drain to surface water.

**PRECAUTIONARY STATEMENTS**

**DANGERS TO HUMANS AND DOMESTIC ANIMALS**

- **DANGER:** Corrosive. Causes irreversible eye damage. May be fatal if inhaled. Do not get in eyes, on skin, or on clothing. Do not breathe dust. Prolonged or frequent repeated skin contact may cause allergic reactions in some individuals.

**PERSONAL PROTECTIVE EQUIPMENT (PPE)**

- **Some materials that are chemical-resistant to this product are made of waterproof material. If you want more information, follow the instructions for category A on an EPA chemical-resistant category selection chart.**

**APPLICATIONS AND OTHER HANDLERS MUST WEAR:**

- Long-sleeved shirt and long pants.
- Shoes plus socks, and:
  - Chemical-resistant gloves.

**ADDITIOLN TO THE PPE LISTED ABOVE:**

- **Spray: Lighting 3 cansisters or less per application and handlers who remain in the treated area for ten minutes or less before full ventilation has taken place must wear:**
  - A face NIOSH approved respirator with an organic vapor cartridge or canister with any R, P, or N filter.

- **In addition to the PPE required for applicators and other handlers, handlers lighting more than 3 canisters per application or any handler (i.e., persons entering to operate ventilation equipment) remaining in the treated area for longer than 10 minutes at a time before full ventilation has taken place must wear:**
  - A self-contained breathing apparatus.

**AGRICULTURAL USE REQUIREMENTS**

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), notification to workers, and restricted entry intervals.

**Entry Restrictions:** Entry (including early entry that would otherwise be permitted under the WPS) by any person other than a certified and equipped handler who is performing a handling task permitted by the WPS is PROHIBITED in the entire greenhouse (entire enclosed structure/building) from the start of application until one of the WPS ventilation criteria has been met.

**WPS Ventilation Criteria include:**

1. Ten air exchanges are completed.
2. Two hours of mechanical ventilation.
3. Four hours of passive ventilation.
4. Seven hours with no ventilation followed by 1 hour of mechanical ventilation.
5. Eleven hours with no ventilation followed by 2 hours of passive ventilation.
6. Twenty-four hours with no ventilation.
**PRODUCT INFORMATION**

Eastern Termit is a protective fungicide formulation for use on fatted ornamentals. The product readily vaporizes to sprayed without decomposition. As live for cover tools, condensation occurs resulting in the formation of the dust particles. Under greenhouse conditions these dusts deposit to a thorough, but,钍, the covering of the plants. Eastern Termit is recommended for use in control of blussom blight, leaf spot and stem and cannot be the fungus, Botrytis cinerea, on various ornamentals.

**GENERAL PRECAUTIONS AND RESTRICTIONS**

Do not apply this product to a greenhouse that is attached to another structure, including another greenhouse, unless the greenhouse to be treated is entirely sealed off from the other structure. For use in commercial greenhouses only. Use in residential greenhouses or other indoor plant sites is prohibited.

**STORAGE AND DISPOSAL**

PESTICIDE STORAGE: Store in a dry location at room temperature (2°C-40°C). PEDESTRIAN STORAGE: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinse water is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative of the nearest EPA regional office for guidance.

CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. Offer for recycling if available or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

**FOSSIL PLANTS**

Ageratum (2) Alyssum (1,2) Certain (1,2) *Balsam (foilage only) Coleus (foilage only) (1) Misch.
