This fly abatement strip is a bait station that controls nuisance flies through ingestion. The bait station is designed to be used in areas where flies are a problem. It contains a unique active ingredient that controls nuisance flies through ingestion. The active ingredient is contained in a sugar-based matrix that flies find irresistible. Flies will land on the station and begin exploring the surface. Once the flies locate the sugar, they will begin feeding. Shortly after feeding, the flies will begin to die.

**DIRECTIONS FOR USE:**

1. Remove the protective pouch from the protective package before use.
2. Hang or affix device close to fly forage areas. This attractant has a strong odor. This attractant has a strong sound is heard at time of application. **NOTE:** This attractant has a strong odor.
3. For best results, hang or affix device close to fly forage areas. Place strips close to the ground in areas that are inaccessible to flies and animals. Avoid placement of strip in locations higher than 4 feet above the ground.
4. Do not place where daily activity will get strips wet.
5. Replace when effectiveness diminishes.

**STORAGE AND DISPOSAL:**

Store in a cool, dry place away from children and animals. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

**FIRST AID:**

**OTHER INGREDIENTS:**

Nithiazine [2H-1, 3-thiazine, tetrahydro-2-(nitromethylene)] 1%

**TOTAL:** 100%

**OTHER INGREDIENTS:**

99%

**ACTIVE INGREDIENT:**

Fannia culicularis. The active ingredient is contained in a sugar-based matrix that is the yellow portion of the fly bait station.

**FLY ABATEMENT STRIP**:

- Kills flies within Seconds
- Easy to use, single application
- Kills flies up to 8 weeks
- Compatible with IPM programs

**PRODUCT LABELING:**

- Simple, easy-to-read labels
- Clear, concise instructions
- Effective, long-lasting control

**PRODUCT BENEFITS:**

- Easy to use, single application
- Kills flies up to 8 weeks
- Compatible with IPM programs

**COMPATIBLE WITH:**

- IPM programs
- Other control methods
- Other control measures

**INDICATIONS FOR USE:**

- It is a recommendation of Federal Law to use this product in a manner consistent with its labeling.
- In enclosed structures or sites with low to moderate house fly populations, use 1 strip per 100-150 ft². In open structures or areas with high house fly populations, use 1 strip per 100-150 ft². To achieve results, it will take several applications of QuikStrike® strips to work to its full capacity.
