OIL-BASED WOOD PRESERVATIVE

• CONTROLS SURFACE MOLD, DECAY & MILDEW • EXCEPTIONAL WATER REPELLENCY • TOXIC TO TERMITES • MEETS VOC STANDARDS
• LOG HOMES • SHINGLES AND SHAKES • SIDING • FENCES • PRESSURE-TREATED END-CUT SOLUTION/STAIN

THE SUPERIOR DEEP PENETRATING TREATMENT • IDEALLY SUITED FOR LOG HOMES, ROOFS, SIDING, AND FENCES

ESPECIALLY ROUGH SAWN LUMBER, OLD WEATHERED WOOD, NEW POROUS WOODS

KEEP OUT OF REACH OF CHILDREN

CAUTION

SEE BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

INGREDIENTS

ACTIVE INGREDIENT:
COPPER 8-QUINOLINOLATE* ........ 0.675%
OTHER INGREDIENTS: ............. 99.325%
TOTAL: .................................. 100.000%

* METALLIC COPPER EQUIVALENT 0.12%
THIS PRODUCT CONTAINS PETROLEUM DISTILLATES

Manufactured for:
ISK Biocides, Inc.
416 East Brooks Road
Memphis, TN 38109

EPA Est. No. 1022-TN-001
EPA Reg. No. 1022-514-71581

80047  IBD-PL-192A  5/17
Woodguard must be dry before application (less than 18% moisture).

This product exceeds NWWDa and Fed. Spec. TT-W-572 Water Repellency requirements by 400%.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION
Avoid contact with skin, eyes or clothing. Harmful if swallowed. Avoid breathing spray mist.

FIRST AID

IF IN EYES:
- Hold eye open and rinse slowly and gently with water for 15 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
- Call a poison control center or doctor for treatment advice.

IF SWALLOWED:
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to by a Poison Control Center or doctor.
- Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 - 20 minutes.
- Call a Poison Control Center or doctor for further treatment advice.

In case of emergency, call Chemtrec toll free at 800-424-9300. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

WARRANTY AND LIMITATION OF DAMAGES
Seller warrants to those persons lawfully acquiring title to this product that at the time of the first sale of this product by seller this product conformed to its chemical description and that it is reasonably fit for the purposes stated on the product label when used both in accordance with the Directions for Use appearing on the product label and under normal conditions of use. Buyers and users of this product assume the risk of all loss or damage from use or handling of this product that results from their failure to read and comply with the Directions for Use of this product which appear on the product label. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY INCLUDING ANY OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR OF MERCHANTABILITY, AND NO AGENT OF SELLER IS AUTHORIZED TO DO SO. Unless expressly prohibited by state law, the liability of seller for any breach of warranty shall not exceed the purchase price of the product as to which a claim is made.

ENVIRONMENTAL HAZARDS
This product is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

DO NOT discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. DO NOT discharge effluent containing this product to sewer system except in previously notifying the local sewage treatment plant authority. For guidance, contact your State water Board or Regional Office of the Environmental Protection Agency.

PHYSICAL OR CHEMICAL HAZARDS
Do not store or use near heat or open flame.

STORAGE AND DISPOSAL

PESTICIDE STORAGE:
Protect pesticide containers from heat and cold. The storage area must be secure, dry, well lit, and well-ventilated. Keep pesticide storage area clean. Store pesticides in a cool, dry, clean area with clear, accessible, and spillproof storage. Always store pesticide in the original container. If a leaky container must be contained within another, mark the outer container to identify the contents.

PESTICIDE DISPOSAL:
Pesticide wastes are acutely hazardous. Improper disposal of pesticide spray mixtures or residue is a violation of capital Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL:
Nonrefillable Container. Do not reuse or refill this container. Trip line as follows: Fill container cut line full with water and recap. Shake for 10 seconds. Follow Pesticide Disposal Instructions for Pesticide Disposal. Drain for 10 seconds after flow begins to drip. Repeat procedure 2-3 times more. Then offer for recycling if available or reconditioning if appropriate or puncture and dispose of in sanitary landfill, or by other procedures approved by state and local authorities.

Woodguard is an oil-based, transparent preservative designed for log homes, fence, railings, and similar applications. WOODGUARD’s oil formula provides long-term protection by penetrating deeply into the wood. It achieves maximum performance on rough sawn lumber, old weathered wood and new porous woods. Topically applied, Woodguard's results in exceptional water repellency on sloping roofs and vertical surfaces; horizontal surfaces are normally subjected to more severe weathering and will usually require earlier retreatment. In harsh environments involving standing water, retreatment may be required annually to maintain water repellency.

Surfaces previously treated with a semi-transparent stain (non-film forming) may be satisfactorily recoated with WOODGUARD when a superior, water repellent preservative is required. WOODGUARD is applied to new or porous or film-covered surfaces which prevent or significantly retard penetration, reduced performance or even complete failure can result. Test first on a small area if in doubt.

See Woodguard Preparation and Maintenance Guide (available at www.iskbiocides.com) for guidelines on preparation of the wood surface for Woodguard application.

WOODGUARD combines mold and decay control with unique and exceptional water repellency. WOODGUARD WITHSTANDS OUTDOOR VERTICAL WEATHERING, ESPECIALLY ON OLD, CRACKED, WEATHERED WOOD. WOODGUARD IS TOXIC TO TERMITES AND ANOBID POWDERPOST BEETLES.

WOODGUARD cannot chip, crack or peel. When applied as directed, it leaves a uniform, streak-free appearance.

WOODGUARD protects and extends service life by inhibiting mold and decay, as well as cupping and warping. A single coat application is recommended for 2 to 4 years on vertical surfaces, and the WOODGUARD WITHSTANDS OUTDOOR VERTICAL WEATHERING, ESPECIALLY ON OLD, CRACKED, WEATHERED WOOD. WOODGUARD IS TOXIC TO TERMITES AND ANOBID POWDERPOST BEETLES.
