HEMPEL'S ANTIFOULING 0LYMPIC HI 76600 is an advanced antifouling paint containing cuprous oxide for the prevention of barnacles, algae, and other marine fouling organisms. Recommended for the underwater bottoms of vessels operated in coastal and estuarine waters.

**DESCRIPTION FOR USE:**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**APPLICATION:**

(Not including thinners for removal of large barnacles, and for certain other uses as directed on the label.) Take care to avoid application of the paint in areas that are difficult to reach or will not be covered by the final coat. Avoid application to areas that may be subject to high pressure water jetting. Prior to application test on small area to verify compatibility with existing paints and substrates. Prior to using this product or any other antifouling paint, review label instructions and all applicable regulations or restrictions. This product is labeled for use as directed on the label and does not require incineration for disposal of waste. Ensure compliance with all applicable local, state, and Federal regulations.
