COATING IS FOR THE AVANCED APPLICATOR HAVING THE NECESSARY EQUIPMENT AND SKILL TO APPLY THIS PRODUCT.

CONSISTENCY IS IMPORTANT TO THE APPLICATION OF THIS PRODUCT. HEMPEL'S OLYMPIC HI 76600 IS NOT RECOMMENDED FOR USE ON CURVED SURFACES. FOR CURVED SURFACES USE HEMPEL'S OLYMPIC HI 76600 IN A THICKER CONCENTRATION.

NOT FOR SALE FOR USE OR STORAGE BY PRIVATE APPLICATORS OR MARINE PERSONNEL. NOT FOR USE ON STATIC STRUCTURES.

This product contains 5.12% copper. EPA Est. No. 10250-TX-001 EPA Reg. No.: 10250-39

ACTIVE INGREDIENT:
Copper oxide

INSERT INGREDIENT:
Petroleum distillate

TOTAL:
5.12% Copper oxide

INERT INGREDIENTS:
Petroleum distillate

ACTIVE INGREDIENT:
Copper oxide

istant the quantity of product found to be defective

PURPOSE FOR THIS PRODUCT. Hempel's only obligation shall be to replace such
corrosive. Causes eye damage and skin irritation. Wear goggles or face shield,
be a dermal sensitizer. Do not get in eyes. Avoid contact with skin, eyes, or clothing.
consequential damages of any nature whatsoever caused. THERE ARE NO IMPLIED
PHYSICAL CHEMICAL HAZARDS: FLAMMABLE

Inert ingredient is 94.88% total. The remainder consists of VOCs and Lacquer Vapors.

FIRST AID:
If IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. > Remove contact lenses, if present, after the first 5 minutes,
LEADERSHIP. Hempel's only obligation shall be to replace such a quantity of product found to be defective.

Container and Rinsate Disposal:
Offer metal containers for recycling (if available) or reconditioning (if appropriate). Otherwise puncture and

PRODUCT IDENTIFICATION:
HEMPEL'S OLYMPIC HI 76600 is an advanced antifouling paint and contains copper for the prevention of barnacles, algae, coral, and other marine fouling organisms. Recommended for the underwater surfaces of steel vessels operated in all coastal and oceanic waters.

APPLICATION INSTRUCTIONS:
Stir thoroughly and apply to a clean dry surface with a temperature above the dew point. Apply over previous coating (examples: primer, sealer, antifouling paint) or according to the written painting specifications developed for the particular vessel. Film thickness (measured by a film thickness gauge) and the number of coats required to be applied depend upon vessel hull conditions, trading pattern, and designed extensions of painted surface service life. Allow at least 10 hours dry time between coats of this product at 20C / 68F. Drying time is proportionally longer at lower temperatures. If thinning is required for ease of application, use 100% pure toluene thinner. The amount of thinner to be added to this product for thinning should be at least 10% of the total volume of the final mixture.

DIRECTIONS FOR USE:
It is a violation of Fed. Reg. to use this product in a manner not covered by the labeling.

DANGERS TO HUMANS AND DOMESTIC ANIMALS

PRECAUTIONARY STATEMENTS:
Hazardous to HUMANS and DOMESTIC ANIMALS

ENVIRONMENTAL HAZARDS:
Physical chemical hazards: Flammable

NOT TO USE OR STORE IN THE VICINITY OF PERSONNEL OR ADVERSE TO HEALTH OR ENSURE ADEQUATE VENTILATION.
