PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING
Causes eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wear protective clothing such as gloves, long-sleeved cotton shirt, long pants, and hat. May be fatal if swallowed or inhaled. Do not breathe vapor or spray mist. While spray- ing paint or sanding or sandblasting boat surfaces, wear a mask or a respirator jointly approved by the Mine Safety and Health Administration and the National Institute of Occupational Safety and Health. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

FIRST AID:
If Swallowed:
• Immediately call a poison control center or doctor.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give any liquid to the person.
• Do not give anything by mouth to an unconscious person.
If on skin or clothing:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes
• Call a poison control center or doctor for further treatment advice.
If Inhaled:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
• Call a poison control center or doctor for further treatment advice.
If in eyes:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for further treatment advice.

Other Help:
Have the product container or label with you when calling a poison control center or doctor or going for treatment.

Note to Physician:
Contains petroleum distillate - vomiting may cause aspiration pneumonia.

ENVIRONMENTAL HAZARDS:
This material is toxic to fish. Do not apply directly to water by clearing of equipment or disposal of waste. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans and other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD:
Flammable. Keep away from heat, sparks or open flame.

STORAGE AND DISPOSAL:
Do not contaminate water; feed or food by storage or disposal.

PRETREATMENT DISPOSAL:
Pesticide waste is toxic. Open dumping is prohibited. Pesticide, spray mixtures, or rinsates that cannot be used or chemically reprocessed should be disposed of according to procedures approved by the Federal, state or local disposal authorities.

CONTAINER DISPOSAL:
Triple rinse (or equivalent). If necessary, collect and transport the residue in a sanitary landfill, or at the disposal approved by the Federal, state and local authorities.

DISCLAIMER: The performance of any marine paint or coating depends on many factors outside the control of International Paint Inc., including surface preparation, proper application and environmental conditions. Therefore, International Paint Inc. cannot guarantee this product's suitability for your particular purpose or application. IMPLIED WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE AND OF MERCHANTABILITY ARE EXCLUDED. INTERNATIONAL PAINT INC. SHALL NOT, UNDER ANY CIRCUMSTANCES, BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES. By purchase or use of this product, buyer agrees that the bare and exclusive remedy of any Buyer is limited to the refund of the purchase price or replacement of the product at International Paint Inc.'s option.

Product Identity

Interspeed 640 Polishing Antifouling

Order Number

BRA643 GREEN

FOR COMMERCIAL USE ONLY

Active Ingredient:  CUPROUS OXIDE  41.97%
Inert Ingredients:  58.03%
COPPER AS METALLIC = 37.11%

Contains petroleum distillates.

KEEP OUT OF REACH OF CHILDREN

WARNING
See side panel for additional Precautionary Statements

EPA Reg. No.: 2693-142
EPA Est. No.: 2693-TX-1

NET CONTENTS: FIVE U.S. GALLONS (18.927 LITERS)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PRODUCT DESCRIPTION: A high performance, inhibitory free, polishing antifouling resistant to algae, barnacles and other marine fouling. For use in fresh, salt and brackish waters. Prevents coating build-up. At subsequent dry- dockings, it is only necessary to top up the system. Low VOC, Intercoat 64 is for industrial use and professional application only. Not for sale to the general public.

PRODUCT INFORMATION:

Finish/Sheen: Semi-Gloss (ASTM D-522)
Concentrate: One (1) gallon
Volume Solids: 60% ± 2% (ASTM D-2808)
Mix Ratio: One part
Film Paint: 75% (CONC) ( SEAFAST ) (ASTM D-2808)
Film Thickness: 4.5 lbs (102g) (dry) specified equivalent to 6.5 lbs (165g) wet
Dry Film Thickness: 0.95 lbs (217g) (dry) specified range equivalent to 6.5 lbs (165g) wet
Theoretical Coverage: 348 sq ft gallon (102m²/100mLs) (102m²/100mLs)
Allow appropriate test factors.

APPLICATION DETAILS:

Method: Airbrush spray, brush or roller.
Stroke: Not recommended. If necessary use
Cleaner: TSP 7408.3 or Thinner section.

REGULATORY DATA:

SYSTEMS & COMPATIBILITY: International should be consulted for detailed application advice. Specification recommendations and as to the suitability of specific products on individual vessels

LIMITATIONS: Apply in good weather when air and surface temperatures are above 60°F (16°C). Surface temperature must be at least 5°F (28°C) above dew point. For optimum application properties, bring material to 59-67°F (15-20°C) temperature range prior to mixing and application. Ungraded material in plastic containers should be maintained in protected storage between 40°F (4°C) and 100°F (38°C).

Proper atmospheric exposure of this product may detack from anti-fouling performance. Recommended maximum exposure time before recoating: tropical conditions 24 hours, temperate conditions 7 days. These times may be extended under certain conditions. Contact your local International Representative for advice.

Technical and application data herein is for the purpose of establishing a general guideline of the coating's and proper coating application procedures. Performance results were obtained in a controlled laboratory environment and international makes no claim that the published results, or any other tests, accurately represent results actually found in all field environments. As application, environmental and design factors can vary significantly, data should be exercised in the selection, verification of performance, and use of the coating.

SURFACE PREPARATION: Paint only clean, dry surfaces. Remove all grease, wax, varnish and other detrimental material by 'solvent cleaning' (GSP-C) or similar treatment.
