TOTAL: 100.00%

Note to Physician:

If inhaled: Allow patient to breathe fresh air. If patient is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth if possible. Do not give anything by mouth to an unconscious person. Do not induce vomiting unless told to do so by a poison control center or doctor. A glass of water if able to swallow. Do not induce vomiting.

IF IN EYES:

Hold eye open and rinse slowly and gently with water for 15-20 minutes.

FIRST AID:

If in eyes, rinse eyes and keep closed and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF ON SKIN OR CLOTHING:

Wash contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

IN CASE OF EMERGENCY, CALL A POISON CONTROL CENTER OR DOCTOR FOR TREATMENT ADVICE.

MAKE RECORD OF ALL RELEVANT INFORMATION ON RJMP DATABASE.

EPA Establishment No.: 3635-OH-1
EPA Registration No.: 875-95
Lot code letters indicate establishment number.

How to use:

1. Scrub and pre-wash soiled and grimey whatever possible.

2. Mixed with cleaning solvent or detergent.

3. Sanitize in a terminal containing 100 ppm of chlorine in the water. Rinse with water for at least 2 minutes or contact time specified by governing sanitary permitting agency has been notified in writing prior to discharge. Do not discharge chlorine in a terminal containing the product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance including the specifications in this box. The job will not be sent to printer until final okay is received. All information contained on the label and in this box is the responsibility of the final approver.

NOTE: Read and check carefully all information, including the specifications in this box. The job will not be sent to printer until final okay is received. All information contained on the label and in this box is the responsibility of the final approver.

DIRECTIONS FOR USE:

1. Release the available chlorine in the water. Rinse with water for at least 2 minutes or contact time specified by governing sanitary permitting agency has been notified in writing prior to discharge. Do not discharge chlorine in a terminal containing the product to sewer systems without previously notifying the local sewage treatment plant authority. **DIRECTIONS FOR USE:**

1. This is a solution of NaOCl. Use this product in a manner consistent with the following:

   **NOTE:** This product dissipates upon contact with air, which reduces its effectiveness in killing microorganisms that are not in contact with NaOCl immediately after application. This means that NaOCl is unable to kill any microorganisms that contact it after air has been allowed to enter the area.

   **DIRECTIONS FOR EATING ESTABLISHMENTS**

   1. Prepare fresh sanitizing solution at least daily or more often when necessary. For guidance from the Department of Health, see the Wisconsin Administrative Code.
   2. Place sanitized utensils on rack or drainboard to air dry.
   3. Keep sanitizing solution at the proper concentration.
   4. Clean all utensils thoroughly and rinse with water before sanitizing.
   5. Sanitize in a solution containing 5 oz. of product for each 10 gallons of water. Test solution frequently during use. Do not re-use this solution at any time because of cross contamination.

   **DIRECTIONS FOR MECHANICAL WASHERS**

   1. Add 2.5 oz. of product per 10 gallons of water to the sanitizing solution containing 100 ppm available chlorine. Resanitize the equipment (e.g., plates, pots, pans, bowls, etc.) during sanitizing, either discard the sanitizer solution or add sufficient disinfectant to bring the sanitizer concentration to 100 ppm available chlorine. This product is intended for use in automatic systems.

   **DIRECTIONS FOR FLUSHING SANITIZING SYSTEMS**

   1. Use the flushing procedure two more times. Offer for recycling, if available.
   2. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or storage.
