Personal Protective Equipment (PPE): Mixers, loaders, applicators, and other handlers must wear the following:
- long-sleeve shirt,
- long pants,
- shoes and socks,
- chemical-resistant gloves made of neoprene or nitrile rubber.

USER SAFETY REQUIREMENTS: Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product’s concentrate. Do not reuse them.

USER SAFETY RECOMMENDATIONS: Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

PHYSICAL OR CHEMICAL HAZARDS: Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

FIRST AID
IF IN EYES
- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

IF SWALLOWED
- Call a poison control center or doctor for treatment advice.
- Do not give any liquid to the person.
- Do not induce vomiting unless told to by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Contains petroleum distillate - volatilization may cause aspiration pneumonia. Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-424-9300 for emergency medical treatment advice.

For medical and environmental emergencies, call CHEMTREC at 1-800-424-9300. Not for Resale. MADE IN THE U.S.A. • Product # 600-6-5388 1M201 • 5388PMLA

PARTSMASTER™ DOWN AND OUT™

- Drops Wasps, Hornets and Yellow Jackets Instantly
- Kills with Residual Action as Wasps and Hornets Return to the Nest
- Kills the Entire Nest
- Sprays up to 20 feet
- Dielectric Breakdown Voltage of 47,300 Volts
- Can be used Both Indoors (Attics and other Places Where Nests are Built) and Outdoors on Wasp and Hornet Nests

ACTIVE INGREDIENTS
- Tetramethrin* 0.10%
- Permethrin 0.45%
- Piperonyl Butoxide 0.50%
- OTHER INGREDIENTS+ 99.55%
- TOTAL 100.00%

• 1-cyclohexene-1,4-diaminobutadienyl/2,2-dimethyl-3-(2-methylpropenyl)cyclopropanecarboxylate.
• Contains Petroleum Distillates
• EPA Reg. No. 1769-370
• EPA Est. No. 4140-TX-1

KEEP OUT OF REACH OF CHILDREN
CAUTION
See elsewhere on the label for additional precautionary language.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read the entire label.

GENERAL PRECAUTIONS AND RESTRICTIONS: Do not enter or allow others to enter until sprays have dried. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Do not apply when food is present. Do not use in commercial food/feed handling establishments, restaurants, or other sites where food/feed is commercially processed or processed. Not for use in Federal inspected meat and poultry plants. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed. Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application. Do not make applications during rain. Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use. Not for broadcast use on indoor residential surfaces. All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:
1) Applications to building foundations, up to a maximum height of 3 feet.
2) Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches, and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications only.

FOR INDOOR AND OUTDOOR USE: For the best results, spray in the early morning or late evening when insect activity is minimal. Stand a safe distance from the nest and do not directly underneath. Remove protective caps. Hold up right and point spray opening toward the nest with the wind at your back. For optimum performance in overhead treatments, align the actuator opening directly opposite the mark on the valve cup. When treating in a downward direction, align the actuator with the mark on the valve cup. Spray until the nest is thoroughly saturated to kill the entire nest population. The residual action will kill wasps and hornets returning to the nest. Wait at least 24 hours before removing the nest.

To kill wasps, hornets, and yellow jackets under eaves, screens, window frames, doors, patios, cracks, holes, or crevices wherever insects are noticed, spray for about 1-2 seconds or until surfaces are moist. To prevent emergence of insects into the house, spray around points where insects may enter such as outside plumbing, faucets, etc., and cracks or crevices in foundations as well as along slits and ledges. When using indoors for crack-and-crevice treatments, do not use more than 1 oz of product to treat every 1.8 square feet. Do not apply to pets or contaminate feed, foodstuffs, dishes or utensils. Avoid spray vegetation directly.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal. Store in cool, dry area away from children. Do not store near heat or open flame.

Container Disposal: This container is made of steel that is at least 15% recycled steel and may be recycled if the growing number of communities where steel aerosol can recycling is available. Before offering for recycling, empty the can by using the product according to the label. DO NOT PUT IN OR ON INCINERATOR. If recycling is not available, wrap the container and discard in the trash.

PRECAUTIONARY STATEMENTS
Hazard to Humans and Domestic Animals
CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.
